A. Title of occupational therapy the project for which this survey is to be conducted:

- Use this template email to promote the profession to your local Member of Parliament and either ask for a meeting or invite them to visit your services.
 - Health and social care are devolved in Wales, Scotland and Northern Ireland. If you're a member in these countries, you might want to email your local Assembly Member (AM) in Wales, Member of Scottish Parliament (MSP) or your Member of Legislative Assembly in Northern Ireland (MLA).
 - Copy and paste the email text below to send to your representative.
- Add their name, your constituency name and your postcode so your they will know you're a constituent.
- You can find contact details for your local MP, AM, MSP or MLA through the website of your national parliament.
 - Edit the email before sending with either a request to meet with them or to invite them to visit your services. Before inviting them to visit your services, we recommend discussing this with your management and / or communications team first.
 - If you're inviting them to visit your service, you can read our tips on how to host your local representative.

¹. Must be at the level of at least an Assistant Vice President/Dean; approval must be sent to the Director of Institutional Research & Planning from sponsor in the form of an e-mail.

- Attach the briefing document PDF to your email.
- If you need support or have any questions, please email us at practice.workforce@rcot.co.uk.

Template email for members to send to your MP, AM, MSP or MLA

Dear [name].

I'm an occupational therapist in [insert constituency name] and I'm reaching out to highlight why occupational therapy is essential for our community. I'd be happy to meet with you in person to discuss this further.

Occupational therapy helps people to do the things they want and have to do. That could mean helping overcome challenges learning at school, going to work, playing sport or simply doing the dishes. Occupations are essential to living. They give our lives meaning, purpose and structure.

I believe prioritising occupational therapy services will greatly benefit residents across our constituency. Occupational therapy is a solution to many of the UK's health and care challenges – it helps relieve pressure on acute services and helps people to get in to work.

We're facing a shortage of occupational therapists, and without support, we risk failing to meet our population's needs. We need to integrate occupational therapy into community settings, including in GP surgeries and schools, to provide help at the right time.

I have attached a copy of a briefing from the Royal College of Occupational Therapists with more information and recommendations for the government for you to consider.

Please edit as appropriate [once completed change all the text to black]:

[I'd welcome a meeting to discuss how you can prioritise occupational therapy and improve our community's wellbeing].

[I'd be delighted to host you at our occupational therapy service (insert details of service) to see for yourself how important these services are and the difference we make].

Thank you for taking the time to consider this. Your support for occupational therapy would make a significant difference.

I look forward to hearing from you.

Best wishes

B. Research question(s) survey will help you answer:

C. Why do you want to conduct the survey at Rhode Island College?

D. Have you sought IRB approval from your organization?

E. Are you planning to conduct the survey at other organizations in addition to Rhode Island College? If so, please specify:

F. Can you envision any ways in which the results of the survey may be useful to Rhode Island College? If so, please specify:

G. Do you require any resources from Rhode Island College (staff time, facilities, technology, etc.) to conduct your survey? If so, please specify:

Target Populations and Administration

A. Who is the RIC target population and research sample for the survey? Please describe in as much detail as possible, noting the characteristics of the population and whether your research sample will include the entire population or only a selected sample (*Example: All full-time undergraduate students enrolled in the fall semester with a major in the School of Nursing*).

B. What kind of information do you need on the target population to select a sample, administer the survey, etc. (e.g., email address, major, RIC id, etc.)?

C. How will you protect the information you have on the target population so that confidentiality is not compromised?

D. How will you administer the survey? Please provide detail on both the format of the survey and how it will be distributed to your sample (*Examples: This will be a paper survey that is distributed to students at an event; this will be an electronic survey that is distributed to the population via e-mail.*).

E. Will you be using any incentives to encourage participation in the survey? If so, please describe:

Timing of the Survey

A. When will the survey be administered (please provide as exact dates as possible)?

Use and Dissemination of Results

A. How will you use the results?

B. How do you plan to share the results (examples: in a formal report, on your website, at a meeting, etc.)?

C. With whom will you share the results? Please indicate whether you plan to share the aggregated results with those who responded to the survey.

D. What will you do to protect the data you have gathered from your research subjects?
