The Pot-Pourri Compendium

A Sampler Document for Extraction Testing

This document is intentionally varied. It mixes headings, body copy, inline formatting, colors, lists, a table, footnotes, a hyperlink, and a block quote so an extraction tool has plenty to chew on. **Emphasis lives here.** See note. [\[1\]](#)

Commented [AS1]: Testing.

# 1. Typography Samples

Below are inline runs with mixed formatting. Each run is a separate span so an extractor can detect boundaries.

**Bold blue, italic red, underlined green, yellow-highlighted, strikethrough, monospace.**

## 2. Lists

### 2.1 Bulleted

Apples — a pomaceous fruit

Bourbon — distilled in Kentucky

Cardamom — a fragrant spice

### 2.2 Numbered (with nested)

Preheat the oven to 375°F.

Whisk dry ingredients.

Sift the flour twice.

Add a pinch of salt.

Bake for 22 minutes.

## 3. Tabular Data

A small table with a header row:

| Region | Q1     | Q2     | Q3     |
|--------|--------|--------|--------|
| North  | \$120k | \$135k | \$150k |
| South  | \$98k  | \$110k | \$128k |
| East   | \$143k | \$151k | \$162k |
| West   | \$87k  | \$92k  | \$104k |

## 4. Quote & Link

“Not all those who wander are lost.” — a line often quoted to test block-quote handling.

More information available at our [reference page](#).

This sentence carries a second footnote for testing multi-note extraction. <sup>†[\[2\]](#)</sup>

## 5. Color Callouts

**WARNING:** Do not feed the extraction tool after midnight.

**INFO:** Tables, lists, and footnotes should each round-trip cleanly.

— end of sample —
