

ONLINE LEARNING

Puget Sound Educational Service District (PSESD) believes that a variety of learning options, including online courses and programs, are critical for 21st Century learners. The ESD recognizes that the online learning environment provides students with unique opportunities to become self-disciplined learners with life-long learning skills. Online learning provides unique and valuable opportunities for students to access curriculum and specialized courses in a flexible learning environment that might not otherwise be available.

PSESD supports a range of online learning opportunities that are equally accessible to all students served in PSESD programs and will provide information to students, parent or guardians of those students regarding online learning options and the guidelines for participation.

Adopted: October 2014

Revised: March 2019
