Topic	Name	Leading question
Overall	Advantages	What are the advantages of doing IDR for an individual researcher?
	Issues / Challenges	What are the issues/challenges for individual researchers when doing IDR?
	Solutions	How can typical issues be solved?
Definitions	Inter-disciplinary	How is IDR defined?
	Multi-disciplinary	How – in contrast to IDR – is MDR defined?
	Trans-disciplinary	How – in contrast to IDR – is TDR defined?
Why	Motivation	What is the motivation of individual researchers to engage in IDR?
What	Content	What is typically the subject of IDR?
	Type	What type of research is done with an IDR-approach?
How	Funding	How is funding relevant for IDR?
	Methods	What methods are applied when doing IDR?
	Publications	What can be said about publications aiming to cover IDR-topics?
When	Career	When in the individual career is it best to engage in IDR?
	Time dependency	What time-constraints are to be considered when engaging in IDR?
Where	Faculty / department	How is the faculty/department of an individual researcher relevant for IDR?
	Institutions	How do institutions influence the individual researcher IDR?
	Research community	How are research communities relevant for IDR?
Who	Home discipline	In what way is the home-discipline of an individual researcher relevant for his/her IDR?

	Individual factors	What individual factor of a researcher influences his/her IDR?
With whom	Communication	What needs to be considered in terms of communication when engaging in IDR?
	Epistemological differences	How are epistemological differences between disciplines relevant for IDR?
	Geographical obstacles	How does geographical distance matter for researchers engaging in IDR together?
	Trust	How does trust between researchers engaging in IDR together matter?
