Author contributions: Indicate the specific contributions of each author in the conception, development, and elaboration of the manuscript.

Contribution	Definition
Conceptualization	Who formulated the research hypothesis?
Experimental data collection	Who carried out the experiments and recorded the data?
Data storage	Who was responsible for storing the experimental data?
Data analysis	Who performed the formal analysis of the study?
Literature review	Who participated in the review of the literature cited in the manuscript?
Manuscript writing	Who contributed to writing the original version of the manuscript?
Manuscript revision	Who reviewed the manuscript before submission?
Supervision	Who supervised/led the research?
Funding acquisition	Who was responsible for securing the funding for the research?

DECLARATION OF COMPETING INTEREST

Authors must report any personal or institutional circumstances or interests that may influence the representation or interpretation of research results. If there is no conflict of interest, state "The authors declare no conflict of interest".

FUNDING

Authors must inform the sources and number of processes of funding obtained for the development of the study ("This research was funded by [name of funder] grant number [xxx]"). If the study did not receive any financial support, the authors should state that "This research received no external funding".

ACKNOWLEDGMENTS

Authors may acknowledge any support given that does not meet the criteria for authorship or the funding section. This may include administrative and technical support or in-kind donations (e.g. materials used for experiments).

RESEARCH DATA FOR THIS ARTICLE (DISPONIBILIDADE DE DADOS)

An article's data availability statement lets the reader know where and how to access the data that support the results and analyses. It may include links to publicly accessible datasets that were analyzed or generated during the study, descriptions of what data is available, and/or information on how to access data that is not publicly available.

INSTITUTIONAL REVIEW BOARD STATEMENT (DECLARAÇÃO DO CONSELHO DE REVISÃO INSTITUCIONAL)

In case the study involves humans or animals, it is necessary to add the approval of the Animal or Human Ethics Council and inform the approval number of the study. "The study was approved by the Institutional Review Board (or Ethics Committee) of NAME OF INSTITUTE (protocol code XXX and date of approval)."
