

Watts Supplier Portal Usage for Suppliers

Watts is using Harrington Group International’s HQMS program to manage supplier quality. HQMS is a two part web-based application: an area where Watts employees login and an area where suppliers login. As a supplier, you can create Deviation Requests, complete 8D Correction Action records that are created by Watts, and add Material Certifications to your parts.

Supplier Portal Site: <https://sp.hgihost.com/watts>

Web Browser compatibility: users / suppliers access the Supplier Portal with their web browser. All modern web browsers are supported – Internet Explorer, Chrome, Firefox, Safari, Microsoft Edge, and mobile. If you use Internet Explorer, it must be version 8 or later. If you have IE version 8, some of the visual elements appear different, but the site is still functional.

A Watts employee will send you an account creation / login invitation to the Supplier Portal Site. After you create your account, you may login to the Supplier Portal. The first person at your company that creates a Supplier Portal account becomes the Administrative Contact. The Administrative Contact can add other users to the Portal.

Once you establish your Portal account, you will only have access to your company’s records through the Portal. Suppliers cannot view other suppliers’ records.

Logout: when you finish viewing information in the Supplier Portal, click the Logout button on the left.

Topics List

Supplier Portal Account Creation	1
Add Supplier Portal Users	3
Add Part / Material Certification(s)	5
Deviation Records	8
Create a Deviation record	8

Supplier Portal Account Creation

As mentioned above, a Watts employee will send you an email invitation to the Supplier Portal. Click the Registration link in the email to create your account.

Email example:

Rodney Test Supplier 3,

We are requesting all of our approved suppliers to become active users of the Watts Supplier Portal. The portal will provide you with an online electronic form submission system along with other useful tools to improve our business relationship.

Please have your primary contact follow the provided link below and register. Once registration is complete, that user will be able to create additional logins as needed.

Supplier Portal Registration Url:

<http://trainingsp.hgihost.com/Watts/Account/Register/AwtNDCaLJsnOmyEWwpLRkkGcSq4dc9uZGErrBi3UaJpSsHeeWhhK5RUlutebfd1c>

Thank You,
Rodney Sturgeon

The above link will display the page / form below:

{Supplier Portal} - Registration

Please enter your personal information, a password and accept the Terms of Service to register.

First Name

Last Name

Email

Password

Confirm Password

License

☐ I have read & agree to the Terms of Service

[Back to Login](#)

Instructions for the form above:

Type your name in the First Name and Last Name fields.

Important: the Email field is also your login ID.

Set a password and confirm it.

Check the box to agree to the Terms of Service and then click Submit.

When you login to the Portal, you will see the screen below:

[Return to topics list](#)

Add Supplier Portal Users

You may add your team members to your Portal. They will each have their own login and can view the same information.

Add a portal user:

1. Click Users on the left and then click Portal Users

2. Click the + / Add User button at the top:

- Fill in their details, including the email address and then click Save:

New Portal User

GENERAL INFORMATION			
First Name	John	Last Name	Doe
Email Address	rsturgeon@hgir	Phone #	(407) 382-7005
Fax #		Department	QA
Position	QA Tech X		

Back
Save
Cancel

- The above user will receive a registration email. That user will click the registration link and setup their account. This user is not an administrative contact and cannot add additional Portal users. Their only option in the Users area is to view their own Profile:

- The non-admin Portal users can still add Deviation records and Material Certifications, and manage Audits and 8D Corrective Actions.

[Return to topics list](#)

Add Part / Material Certification(s)

You can easily add your own Part / Material Certifications through the Portal.

- Click the Supplied Parts link on the left side:

- The Portal will display a list of your supplied parts on the right:

				Print View	Save to PDF	Save for Excel
Part Number	Part Description	Supplier Part Number	Price			
&MS241510	ALAMO: STRAINER 2X4 1.5SOCKET .010					
&DSSCL6	ALAMO: DS ADAPTER 2SLIPX8#8					

- Click a part to view its details and add a certification:

Supplier Part Relationship Details

GENERAL INFORMATION

Part Number

&MS241510

Part Description

ALAMO: STRAINER 2X4 1.5SOX

Deviation Records

You will use the Supplier Portal to create your Deviation records. The Portal will automatically notify your contact at Watts upon its creation. Watts' QA and Engineering teams will review the Deviation record and then update the system. The Portal will then notify you of whether Watts approved or rejected the Deviation.

Create a Deviation record:

1. Login to the Portal and then click the Forms link on the left side:

Messages

Supplied Parts

Forms 3

2. Click Supplier Deviation Request:

3. Click the Initiate Deviation button at the top of the Deviation list:

4. Fill in any necessary details on the Deviation form. The three red fields are required: Subject, Request Part Number, and Supplier Delivery Location. Click Save when ready:

(screen shot on next page)

DEVIATION REQUEST			
Subject	color variation		
Will this impact the Cost?	☐	Cost Differential	
Delivery date affected?	☐	New Delivery Date	
Purchase Order Number(s)	12345	Request Part Number	8DSSCL8
Revision	2	Quantity	20
Supplier Delivery Location	Corporate v		
Requirement (1)	Color should be		
Requirement (2)			
Deviation / Change (1)	color is ...		
Deviation / Change (2)			
Notes	test example		
Deviation Request is:			
Process Related	☐	1st Time	☒
Permanent	☐	Product Related	☒
Material Change	☐	Temporary	☒
Back		Save Cancel	

5. The Portal displays a confirmation page. You may add a file attachment if necessary. If you do not need to perform any other actions in the Portal, click Logout on the left side.

Deviation Attachments

6. On the screen above, click the Upload a file button to add an attachment. Select your file and then click Open. The Portal displays the confirmation page below with the name of the file attachment and its size. There is no need to click any other save buttons at this point. If you do not need to enter any other deviations, click Logout on the left side.

[*Return to topics list*](#)

Review and print Deviation:

1. Watts will look at the Deviation record and either Approve or Reject it. Once Watts has made a decision, the Portal sends you an email, which includes a link to the Deviation record. Click the link to display the login page, login and then print the Deviation. Email example below:

Fri 10/13/2017 10:47 AM

Watts HQMS <DoNotReply@WattsHQMS.com>

Watts Deviation #000009 Approved

To Rodney Sturgeon

Attention Rodney Test Supplier 3,

Your request for Deviation for part 1003067 has been Approved. Please log into the Watts Supplier Portal to print the Deviation form and view the complete details. Please print out and provide this deviation with each shipment that is affected.

Click this link to login and view the Deviation:
<http://trainingsp.hgihost.com/Watts/supplierdeviationchangerequest/Edit/WtsbK5592fFSDMV>

Thank you,
Watts Quality Team

- On the Deviation Change Request Details page, you can view the Engineering Disposition and Comments towards the bottom:

Supplier Deviation Change Request

[Return to topics list](#)

Review all Deviation records:

The Supplier Portal includes a list of all Deviation records for your company. You can view open and closed Deviations. The list color-codes the deviation status to identify them as Submitted, Approved, or Rejected. Submitted are blue, Approved are green, and Rejected are red. "Submitted" deviations are still open and have not yet been approved nor rejected.

1. Access the Deviation list: click Forms on the left and then click Supplier Deviation Request:

2. Look to the right to see the list. By default, the Deviations are listed in order by its number:

SUPPLIER DEVIATION CHANGE REQUEST LIST				
Deviation Request #	Status	Responsible	Date Originated	Supplier Name
000009	Approved	Brugger, Bob	October 13, 2017	Rodney Test Supplier 3
000010	Submitted	Brugger, Bob	October 13, 2017	Rodney Test Supplier 3
000011	Rejected	Brugger, Bob	October 13, 2017	Rodney Test Supplier 3

3. If you want to change the sort order, simply click the column name. Click a column name a second time for a descending sort. An "up arrow" indicates ascending sort and a "down arrow" indicates descending sort. In the example below, I sorted ascending by the Status column:

Deviation Request #	Status	Responsible	Date Originated	Supplier Name
000009	Approved	Brugger, Bob	October 13, 2017	Rodney Test Supplier 3
000011	Rejected	Brugger, Bob	October 13, 2017	Rodney Test Supplier 3
000010	Submitted	Brugger, Bob	October 13, 2017	Rodney Test Supplier 3

Showing 1 to 3 of 3 entries

4. **Search for Deviations:** the list includes a filter option. Simply type text or numbers in the filter field in the upper-left. For numbers, type a minimum of two characters. For text, type a minimum of three characters. Note: you can only search for information in the displayed fields: Deviation #, Status, Responsible, Date Originated, and Supplier Name. In the example below, I typed “rej” and the list displayed the one Rejected record:

Deviation Request #	Status	Responsible	Date Originated	Supplier Name
000011	Rejected	Brugger, Bob	October 13, 2017	Rodney Test Supplier 3

Showing 1 to 1 of 1 entries (filtered from 3 total entries)

5. **Print and/or Export the Deviation List:** use any of the three buttons in top right.
- Print: click the Print View to display a formatted list in your browser. Use your web browser’s print function to print this list. When you are ready to return to the Portal, push the **Escape** key on the keyboard.
 - Save to PDF: click the Save to PDF button, the Portal displays a window where you select a save location and then click Save.
 - Save for Excel: this button creates a .CSV file. You can open that file in Excel. Click the Save for Excel button, the Portal displays a window where you select a save location and then click Save.

8D Corrective Action

Watts may request your feedback / root cause / corrective action response for an 8D Corrective Action record. Watts employees create the 8D Corrective Actions. A Watts employee may notify you via email that they created an 8D record. You can login to the Supplier Portal site to view and complete your 8D records.

You do not have to complete the entire 8D record at once. Just fill in the corresponding sections when you are ready. So, if chose your corrective action, but have not yet implemented nor verified it yet, fill it out later. Click the Save button at the bottom of the page as you work through each section.

Update 8D Corrective Action record:

- Login to the Supplier Portal site. Click Forms on the left and then click 8D Corrective Action:

- Click an open 8D record on the list. The open records do not have a Date Closed value:

8D CORRECTIVE ACTION LIST				
		Print View Save to PDF Save for Excel		
Corrective Action #	Status	Champion	Date Due	Date Closed
001974	D3 - Containment Action	Sturgeon, Rodney	October 27, 2017	
001975	D3 - Containment Action	Sturgeon, Rodney	October 27, 2017	

- On the 8D Detail page, you can add to and edit information in sections D3 (Containment) through D8 (Team Recognition). Simply type your information into the space provided. D3 through D7 (Prevention) each have three text boxes. It is not necessary to fill in all three boxes. For example, if you have three different Root Causes, use each text box. If there is only one Corrective Action, just use one text box.
- Suggestion: save early, save often.** If you enter multiple lines of text into a text box, you may click Save before using the next text box. This will ensure that you do not lose any data.
- Below is an example 8D record where you can see sections D1 through D3:

8D Corrective Action Details

Status: [D3 - Containment Action]

D1 Team Members Names / Titles

Champion: Team Leader:

Team Members:

D2 Problem Statement / Description

Problem Statement:

D3 Choose & Verify Interim Containment Action(s)

Containment Action	D3 - % Effective	D3 - Target Date	D3 - Actual Date
my temporary action			

6. Another example below. Notice how most of the sections include a verification box:

8D Corrective Action Details

Status: D3 - Containment Ac

Verify D5

it should fix it

D6 Implement & Validate Permanent Corrective Action(s)

Implementation	D6 - Target Date	D6 - Actual Date
here is how I put my corrective action into place	10/13/2017	10/13/2017
refer to the file attachments area for my updated process		

Validate D6

this is how I know the problem has been resolved
refer to the file attachments area for my audit results

7. **Attachments:** you can add file attachments to any 8D record. The size limit of the file is around 30MB, but you can upload any type of file. Use this as a verification of your actions and/or process changes. You may also view attachments that Watts has added. Scroll to the bottom of the 8D record for the File Attachments section.
8. **Add Attachment:** click the Add Attachment button, click the "Upload a file" button, find your file and double-click it, the pop-up window displays the name of the file and its size, click the Close button. Below is an example screenshot after I uploaded a file:

Add Attachment

• SafetyFirst.png 0.2MB

9. View Attachments: the 8D record displays all of the file attachments in a table at the bottom of the record. Click the Download link to view one:

FILE ATTACHMENTS			
			Add Attachment
	File Name	Date Uploaded	File Type
 Download	picture	Oct 13 2017 12:00 AM	image/jpeg
 Download	SafetyFirst.png	Oct 13 2017 12:00 AM	image/png
Showing 1 to 2 of 2 entries			
Previous 1 Next			

[Return to topics list](#)

Complete the 8D Corrective Action Record:

- Once you have completed your 8D investigation and verification, send an email to your Watts contact. Or, you can utilize the Portal Discussion section.
- Portal Discussion: scroll towards the bottom of the 8D record to the Discussion section. Type your message in the text box that says "Enter your message...":

DISCUSSION

No messages

- Click the Send button when you are ready and then the 8D record will display your message:

8D Corrective Action Details

Status: D3 - Containment

DISCUSSION

Me

by Rodney at Oct 13 2017 5:04 PM

Please review my corrective action

- A Watts employee will review and close the 8D record. When they close it, the system will send you an email:

Fri 10/13/2017 5:06 PM

Watts HQMS <DoNotReply@WattsHQMS.com>

Watts 8D Corrective Action #001975 : Closed

To Rodney Sturgeon; Rodney Sturgeon

Dear Valued Supplier ;

We would like to Thank You for completing our 8D request to improve our product Quality.

You can review this closed 8D at the link below.

<http://trainingcomport.hgihost.com/watts/HQMS Comport 8D Review.aspx?i=tc70ww675fCr31F60iVctDj70X74CC7kouGV5jBPDlaXiAKbOqd1GnfWjFuSAkdp>

We would like to Thank You once again and please use this as final closure for this particular 8D.

Regards,
The Watts Team.

[Return to topics list](#)

Review all 8D Records

The Supplier Portal includes a list of all 8D records for your company. You can view open and closed 8Ds.

1. Access the 8DCorrective Action list: click Forms on the left and then click 8D Corrective Action:

2. Look to the right to see the list. By default, the 8Ds are listed in order by its number:

8D CORRECTIVE ACTION LIST				
Print View Save to PDF Save for Excel				
Corrective Action #	Status	Champion	Date Due	Date Closed
001974	D3 - Containment Action	Sturgeon, Rodney	October 27, 2017	
001975	Closed	Sturgeon, Rodney	October 27, 2017	
Showing 1 to 2 of 2 entries				Previous 1 Next

3. If you want to change the sort order, simply click the column name. Click a column name a second time for a descending sort. An “up arrow” indicates ascending sort and a “down arrow” indicates descending sort. In the example below, I sorted descending by the Status column:

8D CORRECTIVE ACTION LIST				
Print View Save to PDF Save for Excel				
Corrective Action #	Status	Champion	Date Due	Date Closed
001974	D3 - Containment Action	Sturgeon, Rodney	October 27, 2017	
001975	Closed	Sturgeon, Rodney	October 27, 2017	
Showing 1 to 2 of 2 entries				Previous 1 Next

4. **Search for 8Ds:** the list includes a filter option. Simply type text or numbers in the filter field in the upper-left. For numbers, type a minimum of two characters. For text, type a minimum of three characters. Note: you can only search for information in the displayed fields: Corrective Action #, Status, Champion, Date Due, and Date Closed. In the example below, I typed "clo" and the list displayed the one Closed record:

8D CORRECTIVE ACTION LIST

Print View

Save to PDF

Save for Excel

Corrective Action #	Status	Champion	Date Due	Date Closed
001975	Closed	Sturgeon, Rodney	October 27, 2017	

Showing 1 to 1 of 1 entries (filtered from 2 total entries)

← Previous

1

Next →

5. **Print and/or Export the 8D List:** use any of the three buttons in top right.
- Print:** click the Print View to display a formatted list in your browser. Use your web browser's print function to print this list. When you are ready to return to the Portal, push the **Escape** key on the keyboard.
 - Save to PDF:** click the Save to PDF button, the Portal displays a window where you select a save location and then click Save.
 - Save for Excel:** this button creates a .CSV file. You can open that file in Excel. Click the Save for Excel button, the Portal displays a window where you select a save location and then click Save.
