Articles

1. Analytical insights into constant-roll condition: extending the paradigm to non-canonical models. Ahmadi Seyed mohamad, Ahmadi Nahid, Shokri Mahdi (2024)., JOURNAL OF COSMOLOGY AND ASTROPARTICLE PHYSICS, 2024(05), 005.
2. On the constant roll complex scalar field inflationary models. [], Ahmadi Nahid, Shokri Mahdi (2023)., Journal of Cosmology and Astroparticle Physics, 2023(06), 058.
3. Quantum diffusion in sharp transition to non-slow-roll phase. Ahmadi Nahid, Noorbala Mahdiyar, Feyz abadi Seyedeh Niloufar (2022)., JOURNAL OF COSMOLOGY AND ASTROPARTICLE PHYSICS, 2022(08), 078.
4. M formalism and anisotropic chaotic inflation power spectrum. Talebian Ashkezari Alireza, Ahmadi Nahid (2018)., JOURNAL OF COSMOLOGY AND ASTROPARTICLE PHYSICS, 2018(05), 047-047.
5. delta M formalism: a new approach to cosmological perturbation theory in anisotropic inflation. Talebian Ashkezari Alireza, Ahmadi Nahid, Abolhasani Ali Akbar (2018)., JOURNAL OF COSMOLOGY AND ASTROPARTICLE PHYSICS, 003(2018), 001.
6. M formalism: a new approach to cosmological perturbation theory in anisotropic inflation. Talebian Ashkezari Alireza, Ahmadi Nahid, Abolhasani Ali Akbar (2018)., JOURNAL OF COSMOLOGY AND ASTROPARTICLE PHYSICS, 2018(03), 001-001.
7. The path of light rays traversing a binary system. Ahmadi Nahid, Bayati Sedaghat Zainab (2015)., CLASSICAL AND QUANTUM GRAVITY, 1(1), 1.
8. Can non-local or higher derivative theories provide alternatives to inflation?. Geshnizjani Chazal, Ahmadi Nahid (2013)., JOURNAL OF COSMOLOGY AND ASTROPARTICLE

PHYSICS, 2013(11), 029-029.

9. Second order gauge invariant measure of a tidally deformed black hole. Ahmadi Nahid (2012)., PHYSICAL REVIEW D, ---, -.
10. Consistent Formulation of Metric-Affine Gravitational Theory. Ahmadi Nahid, Moradi Abolfazl (2012).
11. Two timescale analysis of accelerated planar motions. Ahmadi Nahid (2011)., PHYSICAL REVIEW D, 82(2), -.
12. Contingency theory in environmental planning and management. Faryadi Shahrzad, Ahmadi Nahid, لدع اسم (2010)., Journal of Environmental Studies, 39(---), 17-26.
13. Modifications of the Schwarzschild null geodesics in effective field theories. Ahmadi Nahid (2009)., PHYSICAL REVIEW D, 80(---), 124021-124029.
14. Quantum gravitational optics in the field of a gravitomagnetic monopole. Ahmadi Nahid, S Khoeini Moghaddam, Nouri-zonoz Mohammad (2007)., Journal of Physics: Conference Series, 67(67), 012056.
15. Quantum gravitational optics : the induced phase. Ahmadi Nahid, Nouri-zonoz Mohammad (2007)., CLASSICAL AND QUANTUM GRAVITY, 25(---), 135008-135016.
16. Quantum gravitational optics : Effective Raychaudhuri equation. Ahmadi Nahid (2006)., PHYSICAL REVIEW D, 74(74), 1-17.
17. Raychaudhuri equation in quantum gravitational optics. Ahmadi Nahid, Nouri-zonoz Mohammad (2006)., PRAMANA-JOURNAL OF PHYSICS, 74(4), -.
18. Topology mass and Casimir energy. Ahmadi Nahid, Nouri-zonoz Mohammad (2005)., NUCLEAR PHYSICS B, 738(---), 269-282.
19. Modified analytical model for subthreshold current in short channel MOSFETs. Kamarehei Mahmoud, Mohammad Mehdi Khafaji, Ahmadi Nahid (2003)., IEICE Electronics Express, 4(3), 2543-1349.

Books

Conferences

1. Phase Space Analysis of Constant Roll Inflationary Models with Complex Field. [], Shokri Mahdi, Ahmadi Nahid (2023)., National Conference on Gravitation and Cosmology, 1-2 February, Tehran, Iran.
2. Application of delta M formalism in anisotropic inflation. Talebian Ashkezari Alireza, Ahmadi Nahid (2018)., National Conference on Gravitation and Cosmology, 24-25 January, Isfahan, Iran.
3. A new approach to calculation of cosmological perturbations in nearly-isotropic Bianchi models. Talebian Ashkezari Alireza, Ahmadi Nahid, Abolhasani Ali Akbar (2017)., National Gravitation and Cosmology conference 1395, 8-9 February, Zanjan, Iran.
4. the intractions Ahmadi Nahid (2012)., Iranian conference of physics, 27-30 August, Yazd, Iran.

HONORS and AWARDS

ACADEMIC POSITIONS

COURSES OFFERED

Advanced Mathematical Physics

Celestial Mechanics

Advanced Classical Mechanics

General Physics 4

Cosmology

Gravitation 2

Gravitation 1

Advanced Mathematical Physics

Mathematical Physics 2

Mathematical Physics 1
