

■ Academic age

**\*\*Number of years since your PhD defense/graduation or state medical examination**

Net academic age, calculated in full-time equivalents (FTE), which is stated this in years and months.

Describe the non-academic activities that have had an impact on the academic career. You can deduce the following elements: maternity, paternity, adoption, parental leave, care duties, inability to work due to illness or accident, services that benefit the general public, particularly military or civilian service, continuing education, non-scientific activities (e.g. working for the private sector), clinical activities (account for 80% of a FTE), part-time work, unemployment.

The use of academic age template is optional

| Deductions:<br><br>– Deduction 1<br><br>– Deduction 2<br><br>– Deduction 3 | Duration (month(s) and year(s)) and employment rate |                             | Year(s) and month(s) of deduction |
| Total deductions                                                           |                                                     | month(s) and year(s)        |                                   |
| <b>Net academic age</b>                                                    |                                                     | <b>month(s) and year(s)</b> |                                   |

**Here are three examples showing you how to calculate the academic age:**

yr = year ; mth = month

**Example 1**

|                                                                                      |                                                                                        |                    |                                                                  |
|--------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------|--------------------|------------------------------------------------------------------|
| Dissertation defended                                                                |                                                                                        | September 2012     |                                                                  |
| Deadline for submission of funding ap-plication                                      |                                                                                        | October 2022       |                                                                  |
