MU SART: SEXUAL ASSAULT RESPONSE TEAM FAQs

What is SART?

SART is the Misericordia Sexual Assault Response Team. SART exists to provide help to MU students that have been victims of any kind of sexual assault or relationship violence. The SART team operates a 24-hour hotline and are prepared to respond immediately to a student victim in need.

Who are present > one month or severe functional impairment, consider active ***SART members?***

SART members are volunteer staff and faculty that believe in supporting students that have been the victim of sexual assault. SART members are not trained counselors, but have undergone SART and Safe Space training.

Who can call SART for help?

Any student that has been, or is concerned they may become the victim of sexual assault can reach out to SART. CAs and other students can also contact SART on behalf of a student victim. Faculty and staff can also contact SART for advice concerning a student.

When can I call SART?

The SART hotline is available 24 hours a day while classes are in session. It does not matter how long ago the assault occurred—students can call for help whenever they are ready. While rape kits and hospital treatment may only be an option in the first 72 hours following an assault, SART is always able to provide information and referral to other support services in the weeks and months after an assault has occurred.

GAD-7 Anxiety Severity: This is calculated by assigning scores of 0, 1, 2, and 3, to the response categories of "not at all," "several days," "more than half the days," and "nearly every day," respectively. GAD-7 total score for the seven items ranges from 0 to 21.
