The present Service Level Agreement ("the Agreement") is made between **EGI.eu (the Provider)** and **MoBRAIN/vo:enmr.eu/vo.neugrid.eu (the Customer)** to define the provision and support of the provided services as described hereafter. Representatives and contact information are defined in Section 6.

The main objective of MoBrain is to lower barriers for scientists to access modern e-Science solutions from micro to macro scales. By *building heights for residential* on-grid and cloud-based infrastructures and on the existing expertise available within WeNMR⁴ and N4U² and by integrating molecular structural biology and medical imaging services and data, MoBrain will kick-start the development of a larger, integrated, global science virtual research environment for life and brain scientists worldwide. The projects defined in MoBrain are geared toward facilitating this overall objective, each with specific objectives to reinforce existing services, develop new solutions and pave the path to global competence centre and virtual research environment for transnational research from molecular to brain. The Customer is a consortium represented by **the Faculty of Science – Chemistry, Utrecht University**.

This Agreement is valid from **01/01/2016** to **01/01/2017**.

The Agreement was discussed and approved by the Customer and the Provider on **16/02/2016**.

The Services

The Services are defined by the following *properties at Graven Hill site shall not exceed those shown on Drawing No: 1982*:-

High-Throughput Compute (category: Compute) and File Storage (category: Storage) A-L-030-K". High-Throughput Compute allows running computational tasks on high quality IT resources, accessible via a uniform/standard interface and supporting authentication/authorisation based on a membership within a virtual organisation. HTC Compute service is federated from EGI Federation providers offering seamless access to computing capabilities with integrated monitoring and accounting.

Amended drawing 1982-A-L-300

Condition 32: *"The dwellings hereby approved shall be constructed so as to achieve the minimum standards for Graven Hill residences as detailed at Section 4 of the Passive Design Standards Rev. F (October 2015) prepared by Hoare Lea Sustainability and shown on page 5 of The Design Code 2017, or such alternative minimum construction standards as are first submitted to and approved in writing by the Local Planning Authority."*

Our consultants recommend that Passivhaus is requested as an assessment option: It would add flexibility if design teams can choose whether they would prefer to build to Passivhaus or BREEAM Excellent requirements."

Condition 33: *"All non-residential buildings hereby approved on Graven Hill shall be constructed to at least a BREEAM 'Excellent' standard, or such other standard as has first been submitted to and approved in writing by the Local Planning Authority, including as part of the reserved matters."*

⁴ www.wenmr.eu

² neugrid4you.eu

Our consultants further recommend that the requirement to achieve BREEAM Excellent for all non-residential plots on the Graven Hill site should be clarified to set a minimum threshold limit on the size of units that should be assessed under BREEAM. From experience, the numerous requirements for documentation, site management and registration posed by BREEAM are prohibitive for the project teams on small developments. A suggested minimum threshold building area is 500m² GIA; i.e. any non-residential building below this size on site would be exempt from the BREEAM requirement.

The suggested amended wording to Condition 33, first paragraph is: therefore:

"All non-residential buildings above 500m² GIA hereby approved on Graven Hill shall be constructed to at least a BREEAM 'Excellent' standard OR Passivhaus standard, except retail development which shall be constructed to at least a BREEAM 'Very Good' standard. Within 6 months of occupation a final BREEAM or Passivhaus certificate shall be issued, proof of which shall be submitted to and approved in writing by the Local Planning Authority."

Condition 42 *"In respect of Phase 0, Phase 1a and Phase 1b as shown on Drawing No: 1982-A-L-572-I, the development at Graven Hill site shall proceed in accordance with the recommendations and mitigation contained in the approved Protected Species Report dated February 2015 prepared by Waterman Energy, Environment & Design Ltd".*

Now Drawing No. 1982-A-L-573 Rev U

Condition 43 *"In respect of Phase 0, Phase 1a and Phase 1b as shown on Drawing No: 1982-A-L-572-I, the development at Graven Hill site shall proceed in accordance with the approved Habitat Creation and Management Plan dated March 2015 prepared by Waterman Energy, Environment & Design Ltd."*

Now Drawing No. 1982-A-L-573 Rev U

Condition 44 *"In respect of Phase 0, Phase 1a and Phase 1b as shown on Drawing No: 1982-A-L-572-I, the development at Graven Hill site shall be carried out in accordance with the approved Traffic and Logistics Management Plan (Graven Hill Infrastructure - 3252 Rev A) dated April 2013 prepared by Careys"*

Now Drawing No. 1982-A-L-573 Rev U

Condition 47 *"With the exception of Phase 0, Phase 1a and 1b as shown on Drawing No: 1982-A-L-572-I, prior to the commencement of each phase of development revised species surveys as set out in table 12.3, Chapter 12, Volume 2 of the Environmental Statement shall be undertaken to establish changes in the presence, abundance and impact on badgers, bats, dormice, great crested newts, reptiles, birds and invertebrates. The survey results, together with any necessary changes to the mitigation plan or method statement shall be submitted to and approved in writing the Local Planning Authority. Thereafter, the development shall be carried out in accordance with the approved details."*

Now Drawing No. 1982-A-L-573 Rev U

Condition 48 *“With the exception of Phase 0, Phase 1a and Phase 1b as shown on Drawing No: 1982-A- L-572-I, prior to work commencing on any phase at Graven Hill, a Habitat Creation Plan, identifying how existing biodiversity on the site will be maintained and a net bio diversity gain will be delivered, shall be submitted to and approved in writing by the Local Planning Authority. The Plan shall thereafter be implemented in accordance with the phasing set out in the plan”.*

Now Drawing No. 1982-A-L-573 Rev U

Condition 49 *“With the exception of Phase 0, Phase 1a and Phase 1b as shown on Drawing No: 1982-A- L-572-I, prior to the commencement of the development on any phase hereby permitted on Graven Hill, a comprehensive intrusive investigation in order to characterise the type, nature and extent of contamination present, the risks to receptors and to inform the remediation strategy proposals shall be documented as a report undertaken by a competent person and in accordance with DEFRA and the Environment Agency's 'Model Procedures for the Management of Land Contamination, CLR 11' and submitted to and approved in writing by the Local Planning Authority. The report shall identify clearly the phase to which it relates and the relationship to remediation of phases already completed and to those remaining to be undertaken. No development shall take place unless the Local Planning Authority has given its written approval that it is satisfied that the risk from contamination has been adequately characterised as required by this condition.”*

Now Drawing No. 1982-A-L-573 Rev U

Condition 51 *“With the exception of Phase 0, Phase 1a and Phase 1b as shown on Drawing No: 1982-A- L-572-I, prior to the commencement of each phase relating to the Graven Hill site, including any demolition and any works of site clearance, a Construction Environment Management Plan (CEMP) relating to that phase shall be submitted to and approved in writing by the Local Planning Authority. As a minimum, the CEMP shall include:*

o Measures to minimise the environmental impacts of noise, vibration, smells, dust and fumes resulting from construction

o Measures to ensure that construction works do not adversely affect biodiversity

Thereafter, the development shall be carried out in accordance with the approved CEMP”

Now Drawing No. 1982-A-L-573 Rev U

Condition 52 *“With the exception of Phase 0, Phase 1a and Phase 1b as shown on Drawing No: 1982-A- L-572-I, prior to the commencement of each phase relating to the Graven Hill site, a Construction Management Travel Plan (CMTP) relating to that phase shall be submitted to and approved in writing by the Local Planning Authority. As a minimum, the CMTP shall include:*

o Details of all construction activity

o Details of wheel washing facilities

o Restrictions on construction & delivery traffic

o Details of construction routes to the Graven Hill development site

Thereafter, the development shall be carried out in accordance with the approved CMTF”

Now Drawing No. 1982-A-L-573 Rev U

Condition 53 “With the exception of Phase 0, Phase 1a and Phase 1b as shown on Drawing No: 1982-A- L-572-I, prior to the commencement of each phase relating to the Graven Hill site, an Arboricultural Method Statement (AMS) relating to that phase, undertaken in accordance with BS:5837:2012 and all subsequent amendments and revisions, shall be submitted to and approved in writing by the Local Planning Authority. Thereafter, the development shall be carried out in accordance with the approved AMS”.

Now Drawing No. 1982-A-L-573 Rev U

Condition 54 “With the exception of Phase 0, Phase 1a and Phase 1b as shown on Drawing No: 1982-A- L- 572-I, prior to the commencement of each phase relating to the Graven Hill site, details of existing and proposed ground levels of the highway and public realm infrastructure (referred to as "off plot features" in the Design Code 2017) shall be submitted to and approved in writing by the local planning authority. The details shall include measures to deal with any arisings on site wherever possible”.

Now Drawing No. 1982-A-L-573 Rev U

Condition 56 “The development of Graven Hill shall not be occupied until:

(a) In respect of Phase 0, Phase 1a and Phase 1b as shown on Drawing No: 1982-A-L- 572-I, the remedial works have been carried out in accordance with the approved Remediation Options Appraisal and Remediation Strategy Report for Land Transfer Area 1 (ref: WIB13983-104-R-2-2-3-MA-MACF dated January 2016) prepared by Waterman Infrastructure & Environment Ltd. A verification report that demonstrates the effectiveness of the remediation carried out must be submitted to and approved in writing by the Local Planning Authority.

(b) In respect of all subsequent phases, if remedial works have been identified in condition 50, the remedial works have been carried out in accordance with the scheme approved under condition 50. A verification report that demonstrates the effectiveness of the remediation carried out must be submitted to and approved in writing by the Local Planning Authority”.

Now Drawing No. 1982-A-L-573 Rev U

Condition 57: “Prior to the first occupation of the Graven Hill development, other than the development of Phase 0 as shown on Drawing No: 1982-A-L-572-I, the proposed Entrance Works (A41/Graven Hill Road/B4100/A4421 roundabout) as shown on Figure 11.3 in the accompanying Transport Assessment, drawing reference 27808-L463 (September 2011) - A41/Gravenhill Road/B4100 mitigation scheme (signal), between the land and the highway shall be formed, laid out and constructed strictly in accordance with the Local Highway Authority's specifications and that all ancillary works specified shall be undertaken.”

It is requested that this condition be amended to relate to “prior to 100 occupations”, and to relate to the drawing and report attached (2017-01-11 Graven Hill Tech Note, and TM1 and TM2). It is our view and that of our traffic consultants that that the proposals will have no

greater effect on the highway than the previous use by the Ministry of Defence. Positive discussions are underway with the County Council in respect of including enhanced pedestrian and cycle routes as part of temporary traffic management proposals, and I attach the latest report and plans

Condition 58: *"Prior to the first occupation of the Graven Hill development, other than the development of Phase 0 as shown on Drawing No: 1982-A-L-572-I, a construction timetable for the proposed works at Pioneer/A41 roundabout, as shown on Figure 11.4.3 in the accompanying Transport Assessment and drawing reference 27808-L464 (September 2011) - A41/Pioneer Road mitigation scheme, between the land and the highway shall be agreed. The agreed timetable shall thereafter be adhered to and the works shall be formed, laid out and constructed strictly in accordance with the Local Highway Authority's specifications and all ancillary works specified shall be undertaken. There shall be no occupation of Phase 2 (residential) or Phase 1, 2 or 3 of commercial land, as set out in the phasing plan on page 178 of the Design and Access statement, until the agreed works have been implemented in accordance with the timetable, unless otherwise agreed in writing by the Local Planning Authority."*

It is requested that this condition be deleted. The same issues are covered by the s106 agreement at Schedule 18, which requires payments to be made to the County Council to allow them to carry out the works; other than this, the developer has no control over the timing of the works, and it is therefore unreasonable for him to be constrained by the actions (or otherwise) of a third party.

Condition 63: *"In respect of Phase 0, the reserved matters shall be made in accordance with the approved Masterplan and Design Code, comprising of the following documents:*

~~File storage is provided remotely on different Resource Providers with different storage standard interfaces that are transparently available with the possibility of replication.~~

- ~~Resource Centre: **INFN-PADOVA** (Country: Italy)~~

The Services are supported by additional services (category: Software and Service Platform):

- ~~Accounting³~~
- ~~Service Monitoring⁴ (operational only)~~

Note: Please note that following services are not provided by EGI.eu:

- ~~Monitoring of the VOs: vo:enmr.eu and vo:neugrid.eu~~
- ~~Monitoring of services provided by the Customer on agreed resources~~

³ ~~<http://accounting.egi.eu/>~~

⁴ ~~<http://argo.egi.eu/>~~

Service hours and exceptions

The Services operate during the following hours: twenty-four (24) hours a day, seven (7) days a week, three hundred sixty-five (365) days a year.

The following exceptions apply:

- Planned maintenance windows or service interruptions ("scheduled downtimes"⁵) will be notified via e-mail in a timely manner i.e. 24 hours before the start of the outage⁶.
- Downtime periods exceeding 24 hours need justification.

Support

Support is provided via EGI Service Desk⁷. Access requires a valid X.509 or the login via a EGI SSO account⁸. Support is available between:

- Monday to Friday.
- From 9:00 to 17:00 in the time zone of the relevant Resource Centres.

Service times always apply with the exception of public holidays in the country of the supporting Resource Centres.

Incident handling

Incidents will be handled according to the Quality of Support level that is estimated according to the impact of the outage or service quality degradation.

The Quality of Support in this Agreement has level: **Medium**⁹.

Approved Incident priority ¹⁰	Current Response time
Drawing No: 1982-A-L-010-H Proposed Masterplan	Less urgent
Drawing No: 1982-A-L-011-I Proposed Masterplan Northern Area	Urgent
Drawing No: 1982-A-L-040-N Proposed Land Use Plan	Very Urgent
Drawing No: 1982-A-L-030-J Building Height Constraints	Top Priority

Service requests

In addition to resolving incidents, standard service requests (e.g. change requests, information requests, documentation) will be made in accordance with fulfilled through the approved Masterplan and Design Code, comprising defined support channels in the same way as incidents. Service requests are classified as “Less urgent”.

Service level targets

Monthly Availability

- Defined as the ability of a service or service component to fulfil its intended function at a specific time or over a calendar month.
- Minimum (as a percentage per month):
 - INFN-PADOVA: 85%
 - RAL-LCG2 : 85%
 - TW-NCHC : 90%
 - NIKHEF : 85%
 - SURFsara: 85%
 - NCG-INGRID-PT: 85%
 - CESNET-MetaCloud: 85%

Monthly Reliability

- Defined as the ability of a service or service component to fulfil its intended function at a specific time or over a calendar month, excluding scheduled maintenance periods.
- Minimum (as a percentage per month):
 - INFN-PADOVA: 90%
 - RAL-LCG2 : 90%
 - TW-NCHC : 90%
 - NIKHEF: 90%
 - SURFsara: 90%
 - NCG-INGRID-PT: 90%
 - CESNET-MetaCloud: 90%

Quality of Support level

- Medium (Section 3)

Limitations and constraints

The Services provisioning is subject to the following documents: limitations and constraints.

- Support is provided in English.
- Availability and Reliability calculations are based on the Service Monitoring operational results.
- Failures in vo:enmr.eu and vo.neugrid.eu monitoring are not considered as the Agreement violations.
- Downtimes needed to ensure the security of the Service issues are not considered Agreement violations.
- Failures of resource provider not being part of EGI production infrastructure are not considered as Agreement violations.
- Force Majeure. A party shall not be liable for any failure of or delay in the performance of this Agreement for the period that such failure or delay is due to causes beyond its reasonable control. Means any

○ fire, flood, earthquake or natural phenomena,
 ○ war, embargo, riot, civil disorder, rebellion, revolution
 which is beyond the Provider's control, or any other causes beyond the Provider's control

- Failures of the CVMSF system, outside the site providing the service, but affecting the service are not considered as the Agreement violation.

Communication, reporting and escalation

General communication

Regular reporting

As part of the fulfilment of this Agreement and provisioning of the service, the following reports will be provided:

Report title	Contents	Frequency	Delivery
Services Performance Report	The document provides the overall assessment of service performance (per month) and SLA target performance achieved during last 6 months	Every six months	Email to the Customer

Violations

The Provider commits to inform the Customer, if this Agreement is violated or violation is anticipated. The following rules are agreed for communication in the event of violation:

- In case of violations of the Services targets for two consecutive months, the Provider will provide justifications and a plan for Services enhancement to the Customer. The Provider will produce a status report and a Service enhancement plan for the improvement of the Services within one month from the date of the first notification.
- The Customer will notify the supporting Resource Centres in case of suspected violation via the EGI Service Desk (Section 3). The case will be analysed to identify the cause and verify the violation.

Escalation and complaints

For escalation and complaints, the Provider contact (section 6.1) point shall be used, and the following rules apply:

- In case of repeated violation of the Services targets for four consecutive months, a review of the Agreement and of the Services enhancement plan will take place involving the parties of the Agreement.
- Complaints or concerns about the Services provided should be directed to the Provider contact who will promptly address these concerns. Should the Customer still feel dissatisfied, about either the result of the response or the behaviour of the supporting Resource Centres, EGI.eu Director director@egi.eu should be informed.

Information security and data protection

The following rules for information security and data protection related to the Service apply:

- Assertion of absolute security in IT systems is impossible. The Provider is making every effort to maximize security level of users' data and minimize possible harm in the event of an incident.
- The Provider will define and abide by an information security and data protection policy related to the service being provided.
- The parties of the Agreement will meet all requirements of any relevant policy or procedure of the Provider⁴¹ and will comply with the applicable national legislations.

Responsibilities

Of the Provider

Additional responsibilities of the Provider are as follows:

- The Provider adheres to all applicable operational and security policies and procedures⁴² and to other policy documents referenced therein.
- The Provider allows monitoring of the Service in order to measure the fulfilment of the agreed service level targets.
- The Provider retains the right to introduce changes in how the Service is provided, in which case the Provider will promptly inform the Customer and update the Agreement accordingly.

Of the Customer

The responsibilities of the Customer are:

- The Customer must not share access credentials with anyone else.
- The data stored in the system by the Customer must not cause any legal violation due to the content type (such as copyright infringement, dual use, illegal material).
- The use must be consistent with the Acceptable Use Policy⁴³ of the Service.

⁴² https://www.egi.eu/about/policy/policies_procedures.html

⁴³ <https://documents.egi.eu/document/74>

- The Customer will notify the Provider about foreseen under (in case of guaranteed allocation) or over-estimated actual amount of the Service used to update of the Agreement to ensure optimal usage of the Service.
- The Customer should have registered one or more Virtual Organizations (VOs) to define the group of users entitled to access the Service. Information about the VO will be regularly updated in EGI Operations Portal⁴⁴.
- The Customer must request EGI Service Desk support⁴⁵ to enable assigning tickets with appropriate VO name.
- When applicable, the Customer is responsible of ensuring that the Virtual Machine images endorsed and listed in the AppDB⁴⁶ VO image list are properly maintained and updated.
- The Customer commits to acknowledge EGI in the scientific publications benefiting from the Service: "The FP7 WeNMR (project# 261572) and H2020 West-Life (project# 675858) European e-Infrastructure projects are acknowledged for the use of their web portals, which make use of the EGI infrastructure with the dedicated support of CESNET-MetaCloud, INFN-PADOVA, NCG-INGRID-PT, RAL-LCG2, TW-NCHC, SURFsara and NIKHEF, and the additional support of the national GRID Initiatives of Belgium, France, Italy, Germany, the Netherlands, Poland, Portugal, Spain, UK, South Africa, Malaysia, Taiwan and the US Open Science Grid."
- The Customer will provide during Agreement review (yearly) list of scientific publications benefiting from the Service.

Review, extensions and termination

The Services performance will be reviewed against the defined Service level targets according to Section 4. The Agreement will be annually reviewed until expiration. If the Customer wishes to extend the duration after the Agreement termination date, an extension will be negotiated with the Provider.

The Provider retains the right to introduce changes in the Service, in which case the Customer retains the right of terminating the Agreement.

The Agreement can be terminated at any time upon agreement of the parties. Amendments, comments and suggestions must be addressed to the Provider and the Customer according to Section 6.
