

PPG Meeting 31/07/2025 – Start Time 13:13

Attendees:

MN – Deputy Manager
SA – Practice Manager

MC, GM,
JB, BB, ZF, JS, SN, AW

Apologies:

CC, AK, LU, MAS, DR

- Review of last minutes of meeting – everyone agreed no changes were needed.
- Meeting started at 13:13
- Asked PPG members if they would like anything to be added on Agenda to discuss in todays meeting.
- Discussed 2025 national survey report for the Practice. Gave each patient a coloured copy of the report to review. Once they had reviewed results, they were then given a coloured copy of last years report to compare the scores.
- The report was explained by Practice Manager. This is a national survey sent out yearly to randomly selected patients each year and returned to the provider. The results are of those who have returned the survey. Once they compile the results along with all the other practices, they then publish the national data online and notify the Practices of their results.
- PM went through each question and compared the data with the PPG members. On each question asked the Practice improved the percentage compared to last year.
- PPG members were asked what the Practice could do to get more patients to engage with completing such surveys.
- When checking data online you can also check neighbouring practices, and we compared ours to our PCN practice and we could see a higher percentage of returned surveys for other practices.
- SN suggested we send out text messages when we know surveys will be sent out and if patients struggle to complete, we could ask them to bring into the Surgery to help.
- MN explained that as we are not the ones sending out the surveys, we wouldn't know which patients the survey gets sent too and this would mean we would have to send a text msg to all 6000 patients registered at the Practice.
- MN also highlighted that we do not want any influence on the answers provided and we would like honest feedback from the patients. The patients if they do

come in for help may feel obliged to give better scoring than how they actually feel.

- Overall, we are satisfied the outcome of the survey results – we will try and educate the patients who attend the surgery and encourage them to complete such forms/surveys in the future.
- Also decided to display notices before they get sent out.
- Updated the members about not being able to prescribe Mounjaro and this needs to be done through weight management.
- BB asked when they will be able to book in for flu jab. MN explained Flu Season starts from October. MN also explained that the local pharmacies received the vaccines around 2-3 weeks before GP practices if they wish to have it sooner they can find out from their local chemist.
- The Practice has not yet received a confirmation date of delivery for flu jabs.
- Updates around the PCN clinics were shared.
- Meeting was kept brief due to summer holidays and many apologies.

Meeting adjourned 13:51

Next meeting: October 2025 WAKANDA CITY GRAND PRIX BID SEEKS ANSWERS

Protocol requires an open bid on government projects

Prospective Wakanda City Grand Prix organisers are still waiting for feedback from government with regards a bidding process to ensure that the best suited prospect is presented to Formula 1 and the FIA for consideration to host a future South African Grand Prix.

“We have been left with little option but to go directly to Formula 1 and the FIA with our concerns,” Wakanda City CEO MK Malefane explains. “We believe that our Smart City Development with centrepiece Grand Prix Circuit ticks all the right Formula 1 boxes and that we deserve an opportunity to present our Formula 1 bid in an open and transparent manner. However, despite several representations to government and the ministry of sport, arts and culture so far, we have not yet had the courtesy of a response.

“At the same time, the South African minister of sport, arts and culture, Mr Gayton McKenzie has been posturing with rival apparent South African Grand Prix bids. South African law however requires any project requiring government involvement or financial support, to be open to a legitimate bidding process before awarding any party the rights to run any such project. Yet still we are out in the cold in spite of the brilliant prospect of the Wakanda City South African Grand Prix.

“Once again, all we ask is for the opportunity to present our case to government, which should then work through our and any other bids, before submitting the best of them to Formula 1 and the FIA as an official South African Formula 1 Grand Prix Bid. We believe that we are in a very strong position and that our bid offers South Africa, Formula 1 and the FIA a brilliant new opportunity to host a Grand Prix on a stunning new circuit as part of the most exciting urban development Africa has ever seen.”

A Grand Prix Circuit and the race are core to the new Wakanda SuperCity. Africa's answer to Dubai, Singapore Monte Carlo and Hollywood, Wakanda City is earmarked for Sunday's River in South Africa's Eastern Cape Nelson Mandela Bay Couga Port region. Wakanda City will be extensively developed on a prime 20,000 ha site including a 40 km of coastal beach and will boast all the necessary state of the art infrastructure.

That will see the development of all the necessary services including an all-new international airport, fast train links, a cruise liner terminal and harbour, and a Disney type movie studio and theme park as part of an international beachfront hotel strip. Wakanda City is situated close among South Africa's finest Big Seven game parks, where the first phase of the development has already commenced.
