Resolution 3: Safeguarding 2SLGBTQ+ Rights

National Committee Name

National Advocacy Standing Committee

National Committee Chair

Heather Oxman, 587-228-1852, vpadvocacy@cfuw.ca

Proposer State of Illinois

Department of Transportation

Bureau of Business Services

Specifications and Questionnaire for Heavy Wall Deicer Tanks

October 2019

~~This specification and questionnaire covers a heavy walled storage tank(s) for use in storing various melting agents for use by Department of Transportation pavement maintenance operations. The Department of Transportation is specifying acceptable units by required accessories as outlined below.~~

~~Each bidder shall submit with their bid **two sets** of descriptive literature and specifications describing all **the Resolution** equipment and options proposed. This information shall be clearly marked to indicate the make, model, and accessories proposed to be furnished.~~

~~Kenzie Zimmer, advocacy@cfuw-fcfdu.ca, 613-234-8252 ext. 2~~

Resolved Clauses

RESOLVED, That CFUW commit to advancing the human rights, equality, and inclusion of 2SLGBTQ+ (Two-Spirit, Lesbian, Gay, Bisexual, Transgender, Queer) people.

RESOLVED, That CFUW urge all levels of government to uphold the rights of 2SLGBTQ+ youth and adults, ensuring their access to healthcare, education, employment, and housing, free from discrimination and violence.

RESOLVED, That CFUW urge all levels of government to fund programs and services that support the wellbeing of 2SLGBTQ+ people, including, but not limited to, gender-affirming and mental health care, community support services, and public campaigns to foster understanding of sexual and gender diversity.

Specifications and Questionnaire for Heavy-Wall Deicer Tanks

RESOLVED, That CFUW urge provincial and territorial governments to implement comprehensive and mandatory sexual education curriculum that speaks to the diversity of sexual orientations and gender identities, in line with the 2019 *Canadian Guidelines for Sexual Health Education*.

Background

Defining 2SLGBTQ+

The terms and acronyms used to describe sexual and gender identities have evolved—and will continue to evolve—over time. The acronym in this proposed resolution reflects common practice, though the exact acronym used varies depending on the individual, organization, or institution. 2SLGBTQ+ stands for: Two-Spirit, Lesbian, Gay, Bisexual, Transgender, and Queer. The ‘+’ is inclusive of all other sexual and gender diverse identities, including non-binary. For more information about what these terms mean, please see the Government of Canada’s glossary.

Filling the Gap in CFUW’s Adopted Resolutions (Resolved Clause #1)

CFUW does not currently have any adopted resolutions on 2SLGBTQ+ rights or issues. This proposed resolution aims to fill this gap by affirming that CFUW is committed to 2SLGBTQ+ equality, rights, and inclusion. It is important to recognize that the struggle for 2SLGBTQ+ rights is a part of the wider struggle for human rights which CFUW champions, and to ensure CFUW spaces are inclusive and welcoming to all. This overarching commitment is the goal of Resolved Clause #1.

Discrimination Against 2SLGBTQ+ People (Resolved Clause #2)

Although discrimination based on sexual orientation and gender identity is prohibited by the Canadian Human Rights Act, 2SLGBTQ+ individuals continue to face discrimination, violence, and hate crimes. A 2020-21 survey of 2SLGBTQ+ individuals found that over the previous five years, 39% of respondents had experienced violence due to homophobia, transphobia, biphobia, or other forms of discrimination directed at sexual orientation or gender identity (Government of Canada, 2023). In 2023, Statistics Canada reported that hate crimes targeting sexual orientation had increased 69% from the previous year (Statistics Canada, 2024). In February 2024, the Canadian Security Intelligence Service warned that the “violent threat posed by the anti-gender movement is almost certain to continue over the coming year” (Tunney, 2024).

2SLGBTQ+ people also continue to experience discrimination and marginalization when accessing essential services like healthcare, education, employment, and housing. Resolved Clause #2 thus urges all governments to take action on these issues and ensure 2SLGBTQ+ people’s rights are upheld.

Specifications and Questionnaire for Heavy-Wall Deicer Tanks

The Need for 2SLGBTQ+ Programs and Services (Resolved Clause #3)

Members of the 2SLGBTQ+ community experience higher levels of depression, anxiety, suicide, addiction, homelessness, and violence (Centre for Innovation in Campus Mental Health, n.d.; Moore, 2024; Learning Network, 2018). This is particularly the case for 2SLGBTQ+ individuals with other intersecting identities, such as racialized, disabled, and/or young people.

The unique, culturally-constructed barriers and challenges that community members face necessitate tailored programs and services that support their wellbeing. This is the focus of Resolved Clause #3.

Transgender youth are five times more likely to think about suicide, and 7.6 times more likely to attempt it (Kingsbury et al., 2022). Gender-affirming care can be a crucial aspect of supporting the health and wellbeing of transgender youth. Gender-affirming care is defined by the Canadian Paediatric Society (2023) as “care provided to an individual to support their gender identity; this care may be medical, surgical, social, and/or psychological”. The Canadian Medical Association supports the provision of gender-affirming care:

“Ensuring children have universal access to a full range of medical care is essential for their well-being. We know that transgender youth have higher rates of mental health issues, including suicidal tendencies, due to stigma that they face. By providing comprehensive health care options, we affirm the dignity and humanity of transgender individuals, reinforcing the notion that everyone deserves access to the medical support necessary for authentic self-expression” (Canadian Medical Association, 2024).

The Canadian Paediatric Society (2023) outlines how “adolescents who have sought and received hormonal suppression as a part of a multidisciplinary approach to care report improved mental health and psychosocial functioning. Access to these medications has been associated with lower odds of suicidal ideation over the life course.” Thus, gender-affirming care, and inclusive healthcare services more broadly, are lifesaving services that need to be properly funded.

Community support services, such as drop-in centres, hotlines, social programming, counselling, and housing services, also have the potential to be lifesaving. They play a key role in combatting social isolation and providing peer support. Additionally, Resolved Clause #3 urges governments to fund public awareness campaigns about the diversity of sexual orientations and gender identities, to reduce stigma and promote acceptance of 2SLGBTQ+ communities.

Specifications and Questionnaire for Heavy-Wall Deicer Tanks

Substantial, long-term investments in these areas will help to address the inequities faced by 2SLGBTQ+ communities and improve wellbeing and quality of life.

Sexual Education Curriculum (Resolved Clause #4)

Finally, Resolved Clause #4 covers sexual education curriculum. It is important that sexual education speaks to the experiences and needs of *all* students, to ensure they are all able to stay safe and healthy. Inclusive sexual education that teaches students about different sexual orientations and gender identities can also promote acceptance and reduce homophobic and transphobic beliefs among students (Kesler et al., 2023).

The 2019 Canadian Guidelines for Sexual Health Education, funded by the Public Health Agency of Canada, state:

“Sexual health education programs should be relevant to and address the learning needs of LGBTQ2SNA+ people. Sexual health education programs should encourage acceptance and respect for the diversity of sexual and gender identities that exist in the community and include the critical evaluation of discriminatory attitudes and practices.”

These are only guidelines, however, as provinces and territories develop their own sexual education curriculum. As a result, not all students receive comprehensive sexual education. For the health and wellbeing of 2SLGBTQ+ students, as well as the overall attainment of an inclusive, stigma-free society, it is important for provincial and territorial governments to develop *mandatory* sexual education curriculum that speaks to the diversity of sexual orientations and gender identities.

Conclusion

CFUW’s mission is to achieve equality and social justice, and this mission cannot be achieved if the rights of 2SLGBTQ+ people are not upheld. While great progress has been made, Canada is not yet a place where everyone is treated with dignity, respect, and kindness regardless of gender identity and sexual orientation. We all have a role to play in changing this, and this Resolution seeks to commit CFUW to taking part. It calls upon our Clubs to be welcoming spaces, and calls upon our governments to take action to support the wellbeing of 2SLGBTQ+ communities, upholding their rights, and fostering a more inclusive society.

Implementation

To implement this resolution, CFUW Clubs and members can:

Specifications and Questionnaire for Heavy-Wall Deicer Tanks

- Read, watch, and listen to 2SLGBTQ+ stories and perspectives, to further their own understanding and inclusion of 2SLGBTQ+ communities.
- Follow guides to being a 2SLGBTQ+ ally, such as this one.
- Learn about the Two Spirit identity and how colonial norms and systems have repressed Indigenous understandings of gender and sexuality, using resources such as this video.
- Use inclusive language and ensure everyone feels welcome to be themselves in Club spaces.
- Host and attend presentations on topics such as gender identity, the history of the 2SLGBTQ+ rights movement, challenges faced by 2SLGBTQ+ communities, and how to practice allyship.
- Write to local politicians urging sufficient long-term funding for programs and services that actively support the wellbeing of 2SLGBTQ+ individuals, referencing specific programs and services in your community if applicable.
- Donate to or volunteer with 2SLGBTQ+-serving non-profit community organizations.
- Explore awarding scholarships for 2SLGBTQ+ students.
- Attend or participate in local Pride parades and events.
- Write to provincial education authorities about the importance of inclusive sexual education curriculum that speaks to the diversity of sexual orientations and gender identities, particularly in provinces where such curriculum is not currently mandatory.
- Stand up for 2SLGBTQ+ people's rights and call out homophobic or transphobic comments.
- Subscribe to 2SLGBTQ+ advocacy organizations' newsletters and follow them on social media to stay up to date on their activities and participate in their campaigns.

In provinces where transgender youth's rights have been or may one day be curtailed, CFUW Clubs and Provincial Councils can:

- Meet with or write to their respective provincial representatives to voice their opposition to any policies that restrict transgender youth's rights to express their gender as they choose and access the healthcare services that their physicians feel are best for them.

Specifications and Questionnaire for Heavy-Wall Deicer Tanks

warning-violence-1.7114801. Bidders quoting on equipment must submit with their bid written proof of the following:

- ~~The manufacturer of the equipment proposed has been actively involved in the manufacture of the equipment called for in the questionnaire for a period of not less than 5 years.~~
- ~~Parts and service for the equipment proposed are readily available to the State of Illinois.~~

It is the responsibility of each bidder to complete and return this questionnaire with the bid.

~~Unless otherwise specified, the proposed equipment shall be complete in all parts and ready for immediate use upon delivery.~~

~~Bidders are advised to carefully read these specifications as changes have been made since the last solicitation issue.~~

~~Proposed with this Bid:~~

Make: _____

Model: _____

Manufactured by: _____

Bidder: _____

Contact name: _____

Telephone: _____

Email: _____

Specifications and Questionnaire for Heavy-Wall Deicer Tanks

The Illinois Department of Transportation reserves the right to waive minor informalities, deficiencies or technical variances which by their nature are restrictive to a given manufacturer, if in its' judgement, it would be in the best interest of the State to do so and it would not prejudice the rights of other bidders.

Serviceability will be a factor in award. Successful bidder shall either be able to provide service after purchase or shall indicate other qualified service facilities able to service equipment, within a reasonable period of time at agency locations. Bidder shall provide documentation and enumerating service locations. A Review of the bidder's ability to provide prompt parts and service to the State of Illinois and in particular to the delivery location, will be considered in determining award.

Bids will only be accepted from established manufacturers or their authorized dealers. Any dealer submitting a bid hereby guarantees that it is an authorized dealer of the manufacturer and that the manufacturer has agreed to supply the dealer with all quantities of products required by the dealer in fulfillment of its obligations under any resultant contract with the State. Bidder must submit authorized dealer letter upon request.

Warranty:

Unless otherwise specified, Manufacturers' standard warranty shall be provided. **Bidder shall attach copies of warranty with bid. Warranty shall commence at the Illinois Department of Transportation in-service date.** If any equipment fails to conform to the warranties during the applicable warranty period, the Vendor or Manufacturer will adjust, repair or replace the equipment at no charge to the Department as soon as possible upon notice from the Department. Equipment shall be repaired on-site and will be performed at no additional cost to the Department.

The Vendor may provide or perform warranty service at a dealer location within the Districts geographic region if on-site repair is not possible. Vendor shall facilitate pickup and delivery of equipment at Vendor's cost if warranty repair(s) are made off-site during the warranty period. The contract Vendor is responsible for any failure of their allied or sub-contractors' fulfillment of said warranties. Failure to provide this service shall result in a "Complaint to Vendor" that could affect future bid awards.

Delivery:

It will be the responsibility of the successful vendor to guarantee delivery within the quoted time and to require allied manufacturers or suppliers to complete the installation of auxiliary equipment in accordance with the quoted delivery time.

Failure to comply with the quoted delivery time because of delays resulting from the inability of suppliers of allied equipment such as bodies, snowplows, spreaders, etc., may be reason to refuse to consider similar items from those suppliers on future bids.

All equipment provided by the Vendor and the sub-contractor(s) shall be fully operational when delivery is made. Any noted defects at the time of delivery shall be addressed by Vendor in the first 30 days of in-service.

Bidder/Vendor acknowledges the requirements above. Yes ☐ No ☐

Bidder/Vendor Initials: _____

Date: _____

Note: If the equipment proposed exceeds the minimums called for in the specification please do not mark NO. Mark YES and explain with a short comment on how it exceeds.

Specifications and Questionnaire for Heavy Wall Deicer Tanks

Specifications and Questionnaire for Heavy-Wall Deicer Tanks

Tank(s):

The tank(s) shall be used to store a variety of melting agents designed for the winter maintenance of highways. These agents will include but not be limited to Liquid Magnesium, Calcium Chloride, Beet Juice, or Liquid Salt Brine. The tank(s) must be capable of safely containing liquids weighing up to and including 16 pounds per gallon, in the capacities requested.

The following accessories and options shall be included with the Heavy-Walled Tanks:

The sizes of the tanks will be requested in the bid. Each tank shall be delivered to the address in the bid. The tank sizes are as follows:

- ~~6,000-gallon 102" diameter x 182" high (approx.)~~
- ~~10,000-gallon 141" diameter x 160" high (approx.)~~
- ~~15,000-gallon 165" diameter x 186" high (approx.)~~
- ~~20,000-gallon 185" diameter x 242" high (approx.)~~

Complies: ☐ Yes ☐ No

If No describe: _____

The tank(s) shall be heavy wall constructed. The tanks shall be furnished from a single supplier and shall be equal or superior to Norwesco Vertical Storage Tanks in their Heavy-duty blue tank series. Other products from other manufacturers will be considered but they must be equal to or exceed these qualities.

Complies: ☐ Yes ☐ No

Tank manufacturer: _____

Tiedown assembly (if required) shall be manufacture of galvanized steel, utilize tank's molded-in top dome lugs (eight) and be compliant to IBC 2012 & CBC 2013 standards.

Complies: ☐ Yes ☐ No

Each tank shall be equipped with the following ports and fittings:

- ~~Manhole in the top, with replaceable gasket, and secured, approximate diameter 16"-24" (depending on the capacity of the tank)~~
- ~~On the side of the tank, approximately 10" above the bottom of the tank (tee fitting) w/tube. This must also accept 3" full port cam lock fittings.~~
- ~~On the side of the tank, approximately 30" above the fitting listed above tank (tee fitting) w/tube. This must also accept 3" full port cam lock fittings.~~

Complies: ☐ Yes ☐ No
