Boletín de prensa No. 345

Alcaldía de Pasto ha puesto en funcionamiento el botón PSE para realizar el pago de las contribuciones

La Secretaría de Infraestructura y Valorización de la Alcaldía de Pasto ha puesto en funcionamiento el botón PSE para realizar el pago de las contribuciones, esto con la finalidad de facilitarle al ciudadano hacer sus aportes por las obras que benefician a su sector. A través de este botón se podrá realizar el trámite de manera rápida, fácil y segura.

"El botón es permanente para el uso en el momento en que ustedes requieran para poder hacer el pago de su contribución. Para el caso de sectores como Pandiaco o Morasurco se puede hacer el pago mediante abonos o en su totalidad hasta el 31 de diciembre sin intereses", señaló la subsecretaria de Valorización, Mónica Esparza.

Adicionalmente, la funcionaria comentó que las ventajas que brinda la activación del botón PSE es que los ciudadanos podrán realizar sus pagos desde cualquier lugar con acceso a internet, sin necesidad de desplazarse a las oficinas de la Alcaldía o al banco. Así mismo, se garantiza la seguridad y confiabilidad de los pagos en línea, reduciendo el riesgo de errores o extravíos de pagos.

"Estamos complacidos de lanzar este nuevo servicio que beneficiará a los ciudadanos de Pasto. Nuestro objetivo es facilitar el pago de contribuciones y mejorar la experiencia de los

MassHealth

contribuyentes", concluyó la funcionaria.

MassHealth Pediatric Behavioral Health Medication Initiative

BACKGROUND

The Pediatric Behavioral Health Medication Initiative proactively requires prior authorization for pediatric members (generally members less than 18 years of age) for certain behavioral health medication classes and/or specific medication combinations (i.e., polypharmacy) that have limited evidence for safety and efficacy in the pediatric population.

As part of this initiative, the following situations will require a prior authorization:

1. **Behavioral health medication polypharmacy:** (i.e., alpha₂ agonists, antidepressants, antipsychotics, armodafinil, atomoxetine, benzodiazepines, buspirone, cerebral stimulants, donepezil, hypnotic agents,

memantine, meprobamate, modafinil, mood stabilizers [agents considered to be used only for seizure diagnoses are not included], naltrexone, prazosin, viloxazine, and xanomeline/trospium) filled within a 45-day period for members less than 18 years of age:

- Pharmacy claims for 4 or more behavioral health medications **if one of the following is included:** an antipsychotic, a benzodiazepine, divalproex/valproate, lithium, or a tricyclic antidepressant
 - Pharmacy claims for 5 or more behavioral health medications (regardless of the medications included)
2. **Antipsychotic polypharmacy:** overlapping pharmacy claims for two or more antipsychotics for at least 60 days within a 90-day period for members less than 18 years of age;
 3. **Antidepressant polypharmacy:** overlapping pharmacy claims for two or more antidepressants for at least 60 days within a 90-day period for members less than 18 years of age;
 4. **Cerebral stimulant polypharmacy:** overlapping pharmacy claims for two or more cerebral stimulants (immediate-release and extended-release formulations of the same chemical entity are counted as one) for at least 60 days within a 90-day period for members less than 18 years of age;
 5. **Mood stabilizer polypharmacy:** overlapping pharmacy claims for three or more mood stabilizers (agents considered to be used only for seizure diagnoses are not included) for at least 60 days within a 90-day period for members less than 18 years of age;
 6. **Benzodiazepine polypharmacy:** overlapping pharmacy claims for two or more benzodiazepines (hypnotic benzodiazepine agents, clobazam, nasal and rectal diazepam, and nasal midazolam are not included) for at least 60 days within a 90-day period for members less than 18 years of age;
 7. **Antipsychotic** pharmacy claim for members less than ten years of age;
 8. **Antidepressant, armodafinil, atomoxetine, benzodiazepine, buspirone, donepezil, hypnotic, memantine, meprobamate, modafinil, mood stabilizer (agents considered to be used only for seizure diagnoses are not included), naltrexone, prazosin, viloxazine, or xanomeline/trospium** pharmacy claim for members less than six years of age;
 9. **Alpha₂ agonist or cerebral stimulant** pharmacy claim for members less than three years of age.

The reference table below lists the behavioral health medications included in the Pediatric Behavioral Health Medication Initiative. Further information on the prior authorization requirements, including approval criteria, can be found within the MassHealth Drug List at www.mass.gov/druglist.

Pediatric Behavioral Health Medication Initiative Medication List¹

Antidepressants

amitriptyline	levomilnacipran
amoxapine	mirtazapine
bupropion	nefazodone
citalopram	nortriptyline
clomipramine	paroxetine
desipramine	phenelzine
desvenlafaxine	protriptyline
dextromethorphan/bupropion	selegiline ²
doxepin	sertraline
duloxetine	tranylcypromine
escitalopram	trazodone
esketamine	trimipramine
fluoxetine	venlafaxine
fluvoxamine	vilazodone
imipramine	voxoxetine
isocarboxazid	zuranolone

Antipsychotics

aripiprazole	olanzapine/fluoxetine
asenapine	olanzapine/samidorphan
brexpiprazole	paliperidone
cariprazine	perphenazine
chlorpromazine	perphenazine/amitriptyline
clozapine	pimozide
fluphenazine	quetiapine
haloperidol	risperidone
iloperidone	thioridazine
loxapine	thiothixone
lumateperone	trifluoperazine
lurasidone	xanomeline/trospium
molindone	ziprasidone
olanzapine	

Mood Stabilizers

carbamazepine	oxcarbazepine
divalproex	pregabalin
gabapentin	topiramate
lamotrigine	valproic acid
lithium	

Antianxiety Agents

alprazolam	diazepam ³
buspirone	lorazepam
chlordiazepoxide	meprobamate
chlordiazepoxide/ amitriptyline	midazolam ³
clonazepam	oxazepam
clorazepate	

Hypnotics

daridorexant	quazepam
doxepin ⁴	suvorexant
eszolam	temazepam
eszopiclone	triazolam
flurazepam	zaleplon
lomborexant	zolpidem

Alpha₂-Agonists

clonidine	guanfacine
-----------	------------

Stimulants

amphetamine	lisdexamfetamine
dexmethylphenidate	methamphetamine
dextroamphetamine	methylphenidate
dextroamphetamine/ amphetamine	serdexmethylphenidate
	dexmethylphenidate

Miscellaneous

armodafinil	modafinil
atomoxetine	naltrexone ⁵
donepezil	prazosin
memantine	viloxazine
