Boletín de prensa No. 345

Alcaldía de Pasto ha puesto en funcionamiento el botón PSE para realizar el pago de las contribuciones

La Secretaría de Infraestructura y Valorización de la Alcaldía de Pasto ha puesto en funcionamiento el botón PSE para realizar el pago de las contribuciones, esto con la finalidad de facilitarle al ciudadano hacer sus aportes por las obras que benefician a su sector. A través de este botón se podrá realizar el trámite de manera rápida, fácil y segura.

“El botón es permanente para el uso en el momento en que ustedes requieran para poder hacer el pago de su contribución. Para el caso de sectores como Pandiaco o Morasurco se puede hacer el pago mediante abonos o en su totalidad hasta el 31 de diciembre sin intereses”, señaló la subsecretaria de Valorización, Mónica Esparza.

Adicionalmente, la funcionaria comentó que las ventajas que brinda la activación del botón PSE es que los ciudadanos podrán realizar sus pagos desde cualquier lugar con acceso a internet, sin necesidad de desplazarse a las oficinas de la Alcaldía o al banco. Así mismo, se garantiza la seguridad y confiabilidad de los pagos en línea, reduciendo el riesgo de errores o extravíos de pagos.

“Estamos complacidos de lanzar este nuevo servicio que beneficiará a los ciudadanos de Pasto. Nuestro objetivo es facilitar el pago de contribuciones y mejorar la experiencia de los contribuyentes”, concluyó la funcionaria.

Role of Ayurveda in Dry Eczema
Krishna Kadam, Viraj Jadhav

1. Asst. Professor, Department of Rog Nidan, Government Ayurved College, Nanded

INTRODUCTION:

— In Ayurveda, various skin disorders are detailed under the heading Kushtha. It is one of the Mahagada defined by Ayurveda which not only affects the skin but also other dhatus for example Rakta, Mansa etc. Vicharchika is specially mentioned under the heading of Kshudra Kushtha (minor skin ailments). Even though, in terms of severity, incidence and prognosis it is not minor. Vicharchika, a type of Kshudra Kushtha (chronic skin disease) though involves only epidermis, its tendency of recurrence continues to pose problems to

ALCALDÍA
DE PASTO

BOLETÍN DE PRENSA

Oficina de Comunicación Social

the physician. Characteristics of Vicharchika as mentioned in the Brihat trayi are Atikandu, Shyavata, Pidika, Bahustrava or Rukshata and Raji. The consideration of characteristics of Vicharchika as Eczema may also reveal the same fact.

1. Atikandu (excessive itching) In eczema, itching varies from mild to severe paroxysm which even may interfere with work and sleep.
2. Bahu strava (lasikadhya) Eczema is characterized by superficial inflammatory oedema of epidermis associated with vesicle formation. In acute condition wet eczema is common
3. Rukshata (dryness) Chronic illness of Eczema also persists or it may be found in the same patients at different stages.
4. Shyaava Pidika In chronic cases of eczema, integument appears thickened and is hyperpigmented.
5. Raji (Lichenification) Due to scratching in chronic cases of eczema, the skin becomes thick, hyperpigmented with visible criss cross ridges known as lichenification.

Considering the fact that, the combination of external as well internal therapy will play its best role in cure of Eczema. With this view, for present research I have proposed to focus the upashayatmaka effect of Aragwadhadi Kashaya (kalpit compound) as internal medicine and Yashadamrut malahar as external application in patients of Vicharchika.

NEED OF STUDY:

- ❑ Incidence Great prevalence of the disease i.e. 3% in Indian Population
- ❑ Burning problem Severe itching disturbing routine and its nature susceptible to be chronic.
- ❑ Socio Psychological impacts Affects psychological status and disturb the social life due to its appearance,
- ❑ WHO celebrates 29th October as World Psoriasis day

AIMS:

- ❑ To study Nidanpanchaka (aetiopathogenesis) of Vicharchika and its Upashaya according to Ayurveda.
- ❑ To study the Upashaytmaka effect of Aragwadhadi Kashaya and Yashadamrut malahara lepa on Vicharchika.

OBJECTIVES:

- ❑ To assess the efficacy of Aragwadhadi kashaya and Yashadamruta Malahara in the management of Vicharchika w.r.to Eczema.
- ❑ To draw a hypothesis regarding the mode of action of drugs used in the present research on the scientific basis.

MATERIALS AND METHODS:

1. Conceptual Study

Disease Review: It comprises of

- 1) Ayurvedic review
- 2) Modern review

ALCALDÍA
DE PASTO

BOLETÍN DE PRENSA

Oficina de Comunicación Social

~~1) Ayurvedic review:~~ In this, Vicharchika will be defined according to Ayurvedic literature

~~2) Modern review:~~ In this, Eczema will be defined according to Modern literature

Following materials are used for this study:

- ~~☐ Selection of Patient~~ Minimum 60 patients having signs and symptoms of “Vicharchika” were randomly selected from OPD and IPD wings of Government Ayurved College, Nanded
- ~~☐ The patients will diagnosed on the basis of classical signs and symptoms of Vicharchika described in Ayurvedic classics like Kandū, Dāha, Strava, Rukshata, Pidika, Vaivarnya, Raji and Vedna etc.~~
- ~~☐ Informed written consent~~ was taken
- ~~☐ Type of study:~~ Clinical trial
- ~~☐ Study design:~~ Parallel group
- ~~☐ Patients selection:~~ Randomized
- ~~☐ Examination of Patient~~ Examination of Patient was done according to special case proforma which was included
- ~~☐ Etiological factors of Vicharchika~~ with
- ~~☐ Dushti lakshan of Dosha,~~
- ~~☐ Dushya,~~
- ~~☐ Strotas etc.~~
- ~~☐ Resulting Pathogenesis or Samprapti after administration of hetu~~ was studied in detailed.

~~INCLUSION CRITERIA-~~

- ~~1. Patients showing Pratyatma Lakshana of Vicharchika (eczema) described in classical Ayurvedic texts as well in modern medical literature.~~
- ~~2. Age group of 16 to 60 years of either sex~~
- ~~3. Chronicity of disease not more than 3 years.~~

~~—EXCLUSION CRITERIA—~~

- ~~1. Patients suffering from disease like Anemia, Hemorrhagic disorders, Hemiplegia, Convulsion, Tuberculosis, Cancer; severe systemic diseases like Diabetes, Renal disease, H/O liver diseases etc.~~
- ~~2. Pregnancy, lactation~~

~~Registered 60 patients were divided in two groups as-~~

~~1. Group A: Control group~~

~~—— 30 registered patients of Vicharchika were administered Tablet Defcort in the dose of 6 mg twice a day with a glass of water for 30 days.~~

~~2. Group B: Aragvadhadi Kashaya~~

~~—— 30 registered patients of Vicharchika were administered with Aragvadhadi Kashaya (Kalpita compound) in the dose of 40ml twice a day for 30 days along with Yashadamruta Malahara lepa at night as external application on affected parts of body.~~

~~Tablet Defcort :-~~

- ~~☐ Dose- 6 mg twice a day with a glass of water after food,~~

ALCALDÍA
DE PASTO

BOLETÍN DE PRENSA

Oficina de Comunicación Social

~~☐ Duration: at same time every day for 30 days.~~

~~Aragwadhadi Kashaya-~~

- ~~☐ Period: 4 weeks~~
- ~~☐ Dosage: 40 ml twice a day with parts of Ghrita~~
- ~~☐ Duration: Morning 40ml and Evening 40ml (daily)~~
- ~~☐ Bhaishajya Kal: Before meal~~
- ~~☐ Mode of Administration: Oral~~

~~Yashadamruta Malahara-~~

- ~~☐ Period: 4 weeks~~
- ~~☐ Dosage: Quantity sufficient as per affected area of body~~
- ~~☐ Period of application: In day time~~
- ~~☐ Mode of Administration: External application~~

~~LABORATORY INVESTIGATIONS-~~

- ~~☐ Routine investigations wherever needed~~

~~Actual Plan of Work-~~

- ~~☐ The patients were diagnosed on the basis of classical signs and symptoms of Vicharchika with the help of special standard case paper incorporating Nidanpanchaka~~
- ~~☐ More concentration was given on Evaluation of Hetus and resulting Samprapti or Nidanpanchaka.~~
- ~~☐ After diagnosis of the patients, study was intervened by Upashayatmaka therapy(exploration) in the form of Aragwadhadi kashaya and Yashadamruta Malahara~~
- ~~☐ Group A: Control Tab.Defcort 6mg twice a day~~
- ~~☐ Group B: Aragvadhadi Kwatha: 40ml twice~~
- ~~☐ Patients were studied for 6 weeks with the follow up after every 1 week interval.~~
- ~~☐ The Upashayatmaka effect of Aragvadhadi kashaya and Yashadamruta Malahara was assessed in regards to the clinical signs and symptoms on the basis of grading and scoring systems and overall upashaya.~~
- ~~☐ Place of work: OPD and IPD Wings of Government Ayurved College, Nanded~~
- ~~☐ Formulation of drug : Was carried out in Rasashala, Government Ayurved College, Nanded~~
- ~~☐ Duration of work: Was completed in scheduled course of 4 week~~

~~Criteria of assessment:~~

- ~~☐ Criteria of assessment were kept on the basis of relief in the signs and symptoms of the disease Vicharchika:~~
 - ~~☐ For this, the cardinal signs and symptoms were given scores according to their severity, before and after treatment.~~
1. Kandu(Itching)
 2. Daha (Burning sensation)
 3. Vaivarnya (Discoloration)

GRADING AND SCORING OF SIGNS AND SYMPTOMS

Grading and Scoring

For symptoms — subjective parameters were considered

For signs — appropriate clinical parameters were considered

Scoring —

Grade III — +++ — severe

Grade II — ++ — moderate

Grade I — + — mild

Grade 0 — 0 — nil

1) Kandu (itching)

+++ — itching continuously and cannot concentrate on

— routine work and in Night

++ — intermittent itching for more than 5 times per hour

+ — itching only once or twice a day

0 — no itching

ALCALDÍA
DE PASTO

BOLETÍN DE PRENSA

Oficina de Comunicación Social

2) ~~Daha (burning sensation)~~

- ~~+++ continuously burning cannot concentrate on work and even during sleep~~
- ~~++ burning sensation but can concentrate on work~~
- ~~+ burning only 1 or 2 times a day~~
- ~~0 no burning~~

3) ~~Vaivarnya (discolouration)~~

- ~~+++ easily looking discolouration~~
- ~~++ mild discolouration only visible in light~~
- ~~+ very mild discolouration only visible in light~~
- ~~0 no discolouration~~

4) ~~Srava (discharge)~~

- ~~+++ continuous discharge patient requires dressing to lesion to soak up the discharge and disturb his routine work~~
- ~~++ need to put dressing but not disturbing~~
- ~~+ need not to put dressing~~
- ~~0 scanty discharge need not to soak or dressing and dries their own~~

5) ~~Raji~~

- ~~+++ multiple lines with discomfort~~
- ~~++ lines without discomfort~~
- ~~+ single line~~
- ~~0 absent~~

6) ~~Rookshata (dryness)~~

- ~~+++ with discomfort on skin~~

ALCALDÍA
DE PASTO

BOLETÍN DE PRENSA

Oficina de Comunicación Social

~~++~~ — without discomfort on skin

~~+~~ — negligible

~~0~~ — absent

~~7) Pidika (eruption)–~~

~~Number of Pitika per square cm on the effected skin will be measured.~~

~~8) Ruja (pain)–~~

~~+++~~ — continuously painning or aching cannot concentrate on

~~————~~ — work and even during sleep

~~++~~ — pain is there but can concentrate on work

~~+~~ — pain only 1 or 2 times a day

~~0~~ — no pain

~~OVERALL EFFECT OF THERAPY:~~

~~1. Cured:– 100% relief in the sign and symptoms with plain skin surface and significant changes in the color of the affected skin lesion towards normal was considered as cured.~~

~~2. Complete Remission:– more than 76 to 99% relief in the sign and symptoms was recorded as complete remission with marked improvement in the pigmentation and thickening of the skin.~~

~~3. Marked improvement:– 51-75% relief in sign and symptoms was considered as marked improve with in pigmentation and thickening of the skin.~~

~~4. Improvement:– patients showing improvement between 25-50% in sign and symptoms with slight improvement of pigmentation and thickening of the skin was taken as improvement.~~

~~5. No relief:– below 25% relief sign~~

~~OBSERVATIONS:~~

~~On the basis of results found during study upashayatmaka effect of Aragvadhadi kashaya and Yashadamruta Malahara was quoted as follows–~~

~~Before Treatment~~ ~~After Treatment~~

~~CONCLUSION:~~

- ~~Combined effect of Aragwadhadi Kashaya with Yashadamruta malahara was found more effective in patients of Group B(81%) than that of Group A patients treated with Tab. Defecort (53%)~~
- ~~Aragwadhadi Kashaya, a concentrated Decoction of herbal drugs showed mild laxative and detoxifier action.~~
- ~~Yashadamruta malahara showed Shodhan property; reduction and thickness of skin by exfoliation and scrapping, ropan and rejuvenation~~
- ~~More rate of recurrence observed with control group that of study group was nil, observed in follow up study~~
- ~~Economical; Cost effective~~
- ~~Yashadamruta Malahara provided better relief in thick dispigmented lesions of dry Eczema~~
- ~~Drug used in present research, proved their best effect against Vicharchika, in their combination form.~~
