Autumn Term After School Clubs @ The Acorns

Dear Parent/Carer,

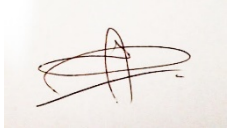

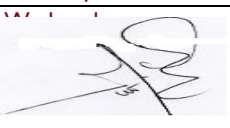

Last year, we offered a total of 36 after school clubs, with over 600 places available. This Autumn Term, we again want to offer our pupils a wide range of after school opportunities. All clubs remain free of charge.

As always, we expect there to be huge demand for places at each club and therefore we are asking for a 1st, 2nd or 3rd choice preference.

You will receive a text if your child has received a place at a club. The text will include a starting date for the club.

The objective of this study is to determine the associations between knowledge, attitude and practice on sodium intake among Malays ethnicity in Malaysia. This study also will identify major food groups which contribute to the dietary sodium intake among them. This information is necessary in order to provide a baseline for monitoring purpose and also for the development of new strategies and promotional activities at the national level that enables effective public education initiatives development.

Please acknowledge that all authors have read and approved the content of the manuscript and there is no conflict of interest among the authors.

Thank you for your consideration.

Yours sincerely,
