

Here's some text.Mixed Formatting Test

This paragraph has no direct formatting — everything comes from the Normal style.

This sentence is **bold** and **this word is red** — ~~only bold and color should survive export as inline-w:rPr.~~

~~Courier New 14pt override: back to normal style here.~~

Character Style Test

Normal text, then ***bold italic override which should export only w:b and w:i, not the inherited font/size.***
