

This pack contains the following to support clubs interviewing candidates for a new senior coach.

- Coach Interview Process
- Coach Interview Scoring Matrix

Coach Interview Process

After screening the potential coaches and deciding which applicant moves to the interview stage, clubs can use this guide to shape their interview.

The process of the interview is broken into the following sections

- **Introduction**, in the introduction each member of the interview panel should introduce themselves and share their role in the club. The potential coach should share their football playing/ coaching experience.
- **Presentation**, in this section the coach would give a 20-30-minute presentation on their Coaching Philosophy, Game Plan and Training Structure. This requirement would be explained to the potential coach when the interview date/ time is set up, this allows the potential coach time to prepare a presentation.
- **Question Time**, in this section the club's interview panel can ask questions to better understand the coaches ability to teach the game, their game day coaching skills, their ability to create an environment for optimal learning and the coaches commitment for personal development

Coach Interview Scoring Matrix

The matrix is used to score each of the potential coaches on a standard scoring system, the matrix is divided into the following areas.

- **Environment**
- **Training**
- **Coaching the Game**
- **The person**

All four areas are scored out of 15 points, the total is 60 points.

Each member of the interview panel is encouraged to write comments during the interview, score the potential coach and decide if the potential coach should progress to the next stage of your clubs selection process.
