The Brooklyn Bridge Park

A breath of Fresh Air and fun in our own back yard!

Tiffany Park

Professor Hutchinson

Perspective in Hospitality Management E-503(24744)

5th April, 2014

The Brooklyn Bridge is one of the most famous bridges in the world. It is one of the oldest suspension bridges in the country and the first to be constructed across the East River. It is 5,989 feet long, 85 feet wide and 135 feet high at its tallest point. When it opened in 1883 it was the largest suspension bridge in the world and the first ever steel-wire suspension bridge. Designed by the late John A. Roebling, it was the largest suspension bridge ever built at that time, and was dubbed the 8th wonder of the world. During the construction Roebling and his son suffered serious injuries. The Brooklyn Bridge makes for a beautiful and interactive learning zone for families on vacation.

Some of the attractions that the Brooklyn Bridge Park has are, the Granite Prospect, Barge Music, Historic Boat Mooring, Harbor view Lawn, Marina, The Brooklyn Bridge, Plaza Tobacco Warehouse and last but definitely not least is the Empire Stores on Water Street

Since the Brooklyn Bridge Park has six Piers, your visits will need to be broken up into pieces and preplanned. At Pier 1 you can take a water taxi on an all day visit around New York's most popular sites. A water front all-day access ride would cost \$30 for adults and \$19 for children 3-19. There is a great offer for this period that gives you the boat ride plus a Memorial visitors pass. Some of the places the Water front taxi stops are Times Square Broadway, Hudson River Park, Dumbo and the Intrepid Sea, Air, and Space Museum and much, much more!

Some ways of getting to the Brooklyn Bridge Park are through the subway lines (A/C, 2/3, 4/5, F, and R); Bus: B25 and B36; Via Water Taxi; East River Ferry at Fulton Ferry Landing.

The Brooklyn Bridge Park is Absolutely perfect for a family because your visit there doesn't limit you to that one destination, where teens can get bored quite easily, but it acts as a springing board for other destinations and adventures to explore!
