

Market Assembly Supplier Overview

1. Operational Requirements

- **Out-of-Hours Work:** The supplier must be capable of working outside normal business hours. Stalls must be set up by 6am on Thursdays and are taken down from 6pm on Saturdays.
- **Weather Conditions:** The supplier must be able to operate in all weather conditions.

2. Location and Availability

- **Local Presence:** Ideally, the supplier should be local to Bromley High Street to ensure they can attend at short notice if required or in case of an emergency takedown.

3. Experience and Expertise

- **Market Gazebo Setup and Takedown:** The supplier should have experience in setting up and taking down multiple market gazebos for markets and/or events.
- **Gazebo Maintenance:** The supplier should have experience in maintaining and undertaking basic repairs to market stall gazebos.

4. Technical Skills

- **Ground Electric Boxes:** Ideally, the supplier should have experience with ground electric boxes (GIFA or Lucy boxes), including mechanical maintenance.

5. Equipment Access

- **Maintenance and Cleansing:** The supplier should have access to a jet washer and a dry/wet vacuum for infrastructure and ground anchor maintenance and cleansing.
