

Predictive Modeling of Treatment Resistant Depression using data from STAR*D and an Independent Clinical Study

Zhi Nie^{1,2}, Srinivasan Vairavan^{3,4}, Vaihbav A. Narayan^{3,4}, Jieping Ye^{1,2}, and Qingqin S. Li^{3,4,*}

Supporting Information:

S4 Fig ROC AUC for TRD as defined by **responder** status and **QIDS-SR₁₆**. ROC curves in the training and test dataset (STAR*D) using full set of features, top n features and the overlapping features in all three datasets. (A-C STAR*D training data; D-F STAR*D test data; G RIS-INT-93 test data) where **response** status was used to define TRD (STAR*D response status was defined using **QIDS-SR₁₆** data, and RIS-INT-93 response status was defined using HAM-D₁₇)
