3. The Copy/Import window will appear.

- Under the Copy Type, select Event.
- In Copy Details, choose what you would like to copy from the original event. Choose Physical Only if you only want to copy the event information. Choose Tier/Inventory if you want to copy the event information with the same tier inventory. Choose Price if you want to copy everything including the prices that were originally built with the past event.
- In Copy to Organization, select the Sales Organization folder to which this event needs to be copied.

4. For a single event that you are copying, click Add Event in the bottom left-hand corner.

5. A database field will appear. In the Start Date, enter the date and time of the event. In the End Date, enter the ending time of this event (i.e. Event XYZ is on September 1, 2020 at 7PM and the runtime of that show will have the event end on September 1, 2020 at 9:30PM for a total run time of 2 hours and 30 minutes).
