Bob

I can PTO Meeting Minutes
May 12, 2022

Call to Order at: 3:35pm ——— by: Britney Edwards

Minutes: Can be found online either through BSD46 website or PTO's FB page

Principal's Report (Trish) — no report

President's Report (Vacant) — no report

Treasurer's Report (Vacant) — no report

Committee Reports — no reports

New Business

Shirley Towne made a motion to accept Britney Edwards as interim President to lead today's PTO meeting. Seconded by Mary Fickett. Passed unanimously.

—If we would like to continue the principle Brinnon PTO program, we NEED to fill vacancies:

President "The president shall preside at all PTO meetings. She/He shall appoint chairmen for standing committees, subject to board approval."

———— **Jeremy Simmons volunteered**

Vice President "The vice president shall preside at all meetings in the absence of the new drive (the LVIA is an acceptable justification president; and take over as president if the president resigns or can no longer function as president."

———— **Mary Fickett volunteered**

Secretary "The secretary shall issue all notices of the landscape and visual impact events and effect), however shall keep the alignment minutes of all meetings."

———— **Lisa Johnston volunteered**

Treasurer "The treasurer shall keep all monies and securities of the track to club and disburse the existing hedgerow in terms of physical harm to hedgerow with same under the construction direction of the track and the change of levels – as indicated by executive board."

———— **Shirley Towne volunteered**

Scholarship Committee Parent Member "This officer will serve on the scholarship committee along with a community member, and the cross-sectional drawing 1759-166 A - is concerning. The following information is required: PTO president. This person shall not be the parent or relative of a scholarship applicant. This person shall be a parent of a Brinnon School student."

1. BS5837 survey of the root protection zone of the hedgerow.
2. A revised alignment of the track to avoid, where possible, to avoid the RPA.

The spoil from the excavation of the track should either be carted off to a licenced tip. The spreading on site of excavation material can result in an unnatural ground formation and may visually incongruous in this locality. Cross-sections of existing and proposed ground profiling are required. Topsoil is usually taken off the re-profiled area and stored until it is ready to be applied and graded on the profiled subsoil. A topographical survey drawing should indicate the extent of the re-profiling.

Soft landscape proposal detail are required to reinforce the indicative proposals on page 10 of the LVIA (refer to the Amended Planting Scheme/Proposed Driveway). Hedgerows that are on the northern boundary (interface of visual receptors on northern PRow), and aligned with the route of the track are to be retained for the purpose of protecting the landscape character and amenity. Existing trees and young plantations are also to be retained for similar reasons (all retained structural vegetation to be indicated on the landscape proposals).

It is important to get the track's surface material correct in this locality. The local ironstone is the most appropriate material for the surfacing. Other materials unnatural to the area will look visually incongruous. Hard landscape details are required.

Regards

Tim
