

Biographical Sketch – Daniel Reed

Daniel A. Reed is the Senior Vice President for Academic Affairs (Provost) at the University of Utah. Previously, he was the University Chair in Computational Science and Bioinformatics, and Professor of Computer Science, Electrical and Computer Engineering, and Medicine at the University of Iowa, where he also served as Vice President for Research and Economic Development. Prior to that, he was Microsoft's Corporate Vice President for Technology Policy and Extreme Computing, where he helped shape Microsoft's long-term vision for technology innovations in cloud computing and the company's policy engagement with governments and institutions worldwide.

Before joining Microsoft, he was the founding director of the Renaissance Computing Institute (RENCI) at the University of North Carolina at Chapel Hill, with joint faculty appointments at Duke and North Carolina State University. At UNC-CH, he also served as Chancellor's Eminent Professor and Vice Chancellor for Information Technology. Prior to that, he was Gutgsell Professor and Head of the Department of Computer Science at the University of Illinois at Urbana-Champaign (UIUC), as well as Director of the National Center for Supercomputing Applications (NCSA). He was also one of the principal investigators and chief architect for the NSF TeraGrid.

Dr. Reed has served as a member of the U.S. President's Council of Advisors on Science and Technology (PCAST) and the the President's Information Technology Advisory Committee (PITAC). He has served on the National Academies Board on Global Science and Technology, the International Telecommunications Union CTO Council, the Advisory Committee for Electronic Records for the National Archives, and the ICANN Generic Names Supporting Organization Council. He is the past chair of the Board of Directors of the Computing Research Association (CRA), which represents PhD-granting computer science departments in North America, and currently serves on its government affairs committee.

He is the incoming chair of Section T (Informatics) of the AAAS. He currently is a member of the National Science Board (NSB), which provides oversight for the U.S. National Science Foundation, chairs the Department of Energy's Advanced Scientific Computing Advisory Committee (ASCAC), chairs the National Academies Panel on Computational Sciences at the Army Research Laboratory, serves on the Board of Directors for the Institute for Research on Innovation and Science (IRIS), and serves on the National Center for Optical Astronomy Management Oversight Council.

Dr. Reed is a Fellow of the ACM, the IEEE and the AAAS. He received his B.S. from Missouri University of Science and Technology and his M.S. and Ph.D. from Purdue University, all in computer science.

Frequently Asked Questions and Answers

Who can apply?

The South Dakota Solid Waste Management Association provides scholarships annually to students with directed studies relating to the protection and enhancement of our natural resources and environment, and/or the solid waste industry or similar fields. Preference will be given to: South Dakota residents intending study at South Dakota institutions of higher learning; vocational school, or other post-secondary trade school; high school seniors and students enrolled full time or part time in a South Dakota post-secondary school. Students who have received an SDSWMA scholarship in the past are eligible to apply each year although preference will be given to new applicants. Children and spouses of Scholarship Committee members are not eligible.

How many scholarships are awarded annually and what are the dollar amounts of these scholarships?

The SDSWMA normally awards 2-4 scholarships annually; however, more may be awarded depending on the number of applications received and available funds. The scholarships generally range from \$1000 to \$2000. In 2019, a total of \$4,000 was awarded between 4 students!

How do I apply?

An applicant must submit a letter of application addressing the information requested on the scholarship application notice.

When is the application deadline?

Applications must be postmarked or submitted by January 15.

What types of coursework or degrees are considered "environmental" or "supporting fields"?

Studies relating to the protection and enhancement of our natural resources and environment, and/or the solid waste industry or similar fields will be considered.

How is the SDSWMA Scholarship funded?

The fund was started with seed money from the Association. The SDSWMA Scholarship Fund has continued to grow with donations.

Can I make a tax deductible contribution to the Scholarship Fund in memory of a colleague or family member?

SDSWMA is a 501(c)(6) Non-profit Corporation. Consult your tax advisor to determine if your contribution is tax deductible. To make a contribution send check and explanation to: SDSWMA Scholarship Fund, PO Box 89802, Sioux Falls, SD 57109. Beginning in 2014, all donations and fundraising income (from the previous year) is paid out in scholarships. Your contributions go directly to students!

~~Why should I be interested in contributing to the SDSWMA Scholarship Fund?~~

~~It is important to impress upon young people the value of a career in the protection and enhancement of our natural resources, the environment, and solid waste industries. One way to do that is to make scholarships available. The fact that the solid waste industry and association are willing to provide scholarships certainly makes an impression on students and the academic community that South Dakota's Solid Waste industry is serious about fostering the educational principles involved in and related to our industry.~~
