

Scramble for Africa! Rules and Directions

Directions:

1. Everyone starts at the Berlin Conference. To leave the Berlin Conference one must role a double anything.
2. The turn-order is: England, France, Belgium, Italy, Germany
3. England=Red; France=Blue; Belgium=Yellow; Italy=Green; Germany=Orange
4. Each Group has a task card that you need to follow.
5. On your turn you must declare which unoccupied colony to enter. To get into the colony= role a double anything.
6. Once you take a colony you need to LIGHTLY shade it your nations color.

Game Rules

1. You can only enter a colony with a "star."
 2. You can only leave a colony with a "star"
 3. You are allowed to move inland from the shore and conquer unoccupied territories by rolling Double 6's.
 4. You may conquer an unoccupied colony OR you may attack an occupied colony on your turn. You may not do both.
- Colonies with stars may be attacked or occupied only.
5. Alliances may be formed or broken. The use of *realpolitik* is encouraged.

Attacking/Entering Occupied Colonies Rules

1. You may only attack adjacent colonies next to yours
 2. You must declare which colony you are attacking
 3. Each person rolls 1 die. Attacker rolls first. Defender rolls second. Highest number wins the colony. If there is a tie their is a re-roll until one person wins.
- If defender wins=You defended off the attack and preserve your colony
- If attacker wins=You take the colony. LIGHTLY color over the existing color with your nation's color.

Special Rules:

1. If you are to conquer Ethiopia you must role Double 6's to enter then Double 6's to conquer it.
2. If you are to conquer Liberia you must role Double 6's to enter and then Double 6's to conquer it.

Winning:

1. You may win the game if you accomplish your nation's task
 2. You may win the game if you have the most amount of points after time ends.
- Everyone needs to keep track of their points on a same group paper. Create columns for each student and enter/subtract points as needed.
3. You may win the game if you conquer all of Africa

Game Questions: To be answered when game or time is over.

1. Why did you win or lose?
2. Why did you have to roll double 6's to enter an unoccupied area of the board?
3. What do the points of each colony represent?
4. Why do you have to role double 6's twice to take Ethiopia?
- 5a. Did you pay attention to your competitors?
 - b. Were you aware of their goals?
 - c.How did their actions influence your actions?
 - d. Did you get angry with them?
 - e. If you could break the rules without getting caught would you?
6. Your decisions created colonial boundaries that will become the borders of modern-day African countries. What problems have you created by dividing up Africa based on European goals rather than African ones?

BELGIUM TASK CARD

YOUR JOB IS TO HOLD THE BELGIUM CONGO AND ANY
THREE COLONIES ADJACENT TO IT

Historical Note: Belgium gets many resources from the
Congo, particularly rubber and ivory (from elephants).

School of Communication, Languages and Performing Arts

Department of Communication

GERMAN TASK CARD

YOUR JOB IS TO TAKE AND HOLD UGANDA AND EAST
AFRICA AND TO EXPAND WEST-WARD TO TAKE AND HOLD
KAMERUN

Historical Note: Germany arrived late to African
colonization and sought to have any colonies.

GREAT BRITAIN

YOUR JOB IS TO TAKE AND HOLD EGYPT AND EXPAND
SOUTHWARD TO TAKE AND HOLD SOUTH AFRICA

Historical Note: Great Britain wants Egypt to control the
Suez Canal and build a railroad from Egypt to South Africa

Instructions

1. This paper has FC
2. Answer Question
3. The exam is two hours long.
4. Any form of cheating will result in a failing grade.
5. Please show all

FRANCE TASK CARD

YOUR JOB IS TO TAKE AND HOLD FRENCH WEST AFRICA AND
TO EXPAND EAST-WARD TO TAKE AND HOLD ERITREA and
SOMALILAND

h. The candidate will earn a

EXAM BEGINS ON SECOND P

ITALY TASK CARD

YOUR JOB IS TO TAKE AND HOLD ERITREA and
SOMALILAND, AND TO EXPAND SOUTH-WARD TO TAKE
AND HOLD MOZAMBIQUE

QUESTION ONE (30MKS)

a) Distinguish between the following statistical concepts

i) Measures of central tendency and Dispersion (2mks)

ii) Type I and Type II error (2mks)

iii) Continuous and Discrete variable (2mks)

iv) Sample and Population (2mks)

v) Class interval and class limit (2mks)

b) The following data shows the marks the student scored in an IQ test interview done to students who had applied for a public relation job in one Media Company. Study the table below and answer the question that follows

Classes (marks)	20-30	30-40	40-50	50-60	60-70	70-80
Frequencies (No. of students)	4	4	8	6	3	2

Calculate the following:

i) Standard deviation (6mks)

ii) Median using the formulae..... (4mks)

iii) Quartile deviation (6mks)

c) Discuss three types of correlation analysis (4mks)

QUESTION TWO (20MKS)

Students at Daystar University in the 302 evening class were polled by a researcher attempting to establish a relationship between hours of study in the week immediately preceding the end of semester exam and the marks received on the exam. The surveyor gathered the data listed in the accompanying table.

Hours of study	25	12	18	26	19	20	23	15	22	8
Exam score	93	57	55	90	82	95	95	80	85	61

- i) Find the least squares regression line by identifying the appropriate dependent and independent variable. _____
(10mks)
- ii) Interpret the meaning of the values of β_0 and β_1 calculated in part (i). _____ 4mks
- iii) Compute the correlation of coefficient and coefficient of determination and interpret them. _____
(6mks)

QUESTION THREE (20MKS)

- (a) Explain the main characteristics of the normal distribution curve _____ (5marks)
- (b) A supermarket stocks groceries whose prices are normally distributed with a mean of Ksh 200 and a standard deviation of 15. On a certain weekend Akinyi had visitors and went shopping for groceries. She spent Ksh 5000 on her shopping.
- i) How much did she spend on groceries whose prices are less than Ksh 220
($X < 220$)? _____ (2marks)
- ii) How much did she spend on groceries prices are more than Ksh 150
($X \geq 150$)? _____ (3marks)
- iii) How much did she spend on groceries whose prices are between Ksh 180 and Ksh 210? ($180 \leq x \leq 210$).
_____ (4marks)
- (c) Explain three advantages of sampling _____ (6marks)

QUESTION FOUR (20MKS)

- a) Explain two advantages of median as a measure of central tendency _____ (4mks)
- b) Explain four steps in hypothesis testing _____ (6mks)
- c) The number of parts for a particular spare part in a factory was found to vary from day to day. In sample study the following information was obtained:

Day	No of parts

	demanded
Monday	1124
Tuesday	1125
Wednesday	1110
Thursday	1120
Friday	1126
Saturday	1115
Total	6720

Using chi-square, test the hypothesis that the number of parts demanded does not depend on the day of the week at 5% level of significance _____ (10mks)
