Author contributions: Indicate the specific contributions of each author in the conception, development, and elaboration of the manuscript.

Contribution	Definition
Conceptualization	Who formulated the research hypothesis?
Experimental data collection	Who carried out the experiments and recorded the data?
Data storage	Who was responsible for storing the experimental data?
Data analysis	Who performed the formal analysis of the study?
Name of the company, organization, group, initiative or community that submits the change request. Literature review	Partior Pte. Ltd. Who participated in the review of the literature cited in the manuscript?
Manuscript writing	Who contributed to writing the original version of the manuscript?
Manuscript revision	Who reviewed the manuscript before submission?
Supervision	Who supervised/led the research?
Funding acquisition	Who was responsible for securing the funding for the research?

A.2 Contact person:

Person that can be contacted for additional information on the request

Rakhi Shrivastava: Rakhi.shrivastava@partior.com

Petrina Chong: Petrina.chong@partior.com

Dmitry Avramenko: dmitry.avramenko@partior.com

A.3 Sponsors:

If the submitter acts on behalf of or has gained support from other organizations, groups, initiatives, or communities, these should be listed as sponsors.

N.A

B. Related messages:

[camt.046.001.06 GetReservationV06](#)

C. Description of the change request:

This change request seeks to include the date-time range in the camt.046.001.06 GetReservationV06 to request the details of one or more reservations on the account.

This allows the users to select a particular time span specified between a start date time and an end date time in the camt.046.001.07 request message as one of the options in the search criteria to get the reservation details.

D. Purpose of the change:

Addition of date time range attributes is to allow for the ability to search the reservations in the specified time range.

This will prevent the time unbounded list of reservations to be returned with camt.047.001 which may result in huge data to handle.

E. Urgency of the request:

It is proposed to include this change request in the next regular maintenance cycle.

F. Business examples:

Requested date time fields are to be included in the message element 'SearchCriteria' which is used to defines the criteria to extract the reservation information.

For Example:

<u>Field</u> Author	<u>Type</u> Contribution(s)
<u>SearchCriteria</u> <SchCrit>Author-1

SEG/TSG recommendation:

This section is not to be taken care of by the submitter of the change request. It will be completed in due time by the SEG(s) in charge of the related ISO 20022 messages or the TSG for changes related to the BAH.

<u>Consider</u>	<u>X</u>	<u>Timing</u>	
		<u>- Next yearly cycle: 2022/2023</u> (the change will be considered for implementation in the yearly maintenance cycle which starts in 2022 and completes with the publication of new message versions in the spring of 2023)	<u>X</u>
		<u>- At the occasion of the next maintenance of the messages</u> (the change will be considered for implementation, but does not justify maintenance of the messages in its own right – will be pending until more critical change requests are received for the messages)	
		<u>- Urgent unscheduled</u> (the change justifies an urgent implementation outside of the normal yearly cycle)	
		<u>- Other timing:</u>	

Comments:

<u>Reject</u>

DECLARATION OF COMPETING INTEREST

~~Authors must report any personal or institutional circumstances or interests that may influence the representation or interpretation of research results. If there is no conflict of interest, state "The authors declare no conflict of interest".~~

FUNDING

~~Authors must inform the sources and number of processes of funding obtained for the development of the study ("This research was funded by [name of funder] grant number [xxx]"). If the study did not receive any financial support, the authors should state that "This research received no external funding".~~

ACKNOWLEDGMENTS

~~Authors may acknowledge any support given that does not meet the criteria for authorship or the funding section. This may include administrative and technical support or in-kind donations (e.g. materials used for experiments).~~

RESEARCH DATA FOR THIS ARTICLE (DISPONIBILIDADE DE DADOS)

~~An article's data availability statement lets the reader know where and how to access the data that support the results and analyses. It may include links to publicly accessible datasets that were analyzed or generated during the study, descriptions of what data is available, and/or information on how to access data that is not publicly available.~~

INSTITUTIONAL REVIEW BOARD STATEMENT (DECLARAÇÃO DO CONSELHO DE REVISÃO INSTITUCIONAL)

~~In case the study involves humans or animals, it is necessary to add the approval of the Animal or Human Ethics Council and inform the approval number of the study. "The study was approved by the Institutional Review Board (or Ethics Committee) of NAME OF INSTITUTE (protocol code XXX and date of approval)."~~
