

Day 1

Welcome – Col Kraus (15 mins)

Welcome/Logistics – Dr. Roach/Dr. Bin-Salamon (5 mins)

I. University of Maryland

- a. Overview – Losert (30 mins)
- b. Introduction of Analysis – Losert (30 mins)
- c. Electrotactic signaling pathways - Devreotes (30 mins)

BREAK (10 mins)

- d. Novel electric field generators and probes – Quan (30 mins)
- e. Controlling excitable networks and signaling pathways with nanotextures – Fourkas (30 mins)
- f. Electrotaxis in epithelial cells and tissues – Zhao (30 mins)

BREAK (1.5 hours)

- g. Electrical excitable networks – Kanold (30 mins)
- h. Review of MURI Aims – MURI Team (30 mins)

Day 2

Welcome/Logistics – Dr. Roach/Dr. Bin-Salamon (5 mins)

II. Old Dominion University

- a. Overview – Pakhomov (15 mins)
- b. Engineering Core Report: Novel nanosecond pulse generators and delivery systems aimed at studying cancellation effects – Xiao (30 mins)
- c. Bipolar pulse cancellation: The role of pulse shape and duration; Peripheral nerve excitation by nanosecond-duration stimuli - Pakhomov/Casciola (30 mins)
- d. Spectral analysis of transmembrane potential induced by unipolar and bipolar pulsed electric fields; Sub-ten-nanosecond bipolar pulse cancellation – Vernier (30 mins)
- e. Overview of mechanistic nanopore modeling for reversal; MD results can improve cell models; Cell system modeling with transient and long-lived nanopores – Stern/Weaver (30 mins)
- f. Non-invasive assessment of electrical and mechanical properties on a microscale – Yakolev (30 mins)

- g. Anoctamin 6 is involved in plasma membrane phospholipid perturbation following nsPEF insult; Assisted membrane discharge: A potential mechanism of bipolar pulse cancellation – Pakhomova/Muratori/Bruno (30 mins)
- h. Response of excitable adrenal chromaffin cells to monopolar and bipolar pulses – Craviso/LeBlanc (30 mins)
- i. General discussion and next year targets (30 mins)

Biophysics Presentation – Dr. Roach/ Dr. Bin-Salamon (30 mins)

Open discussion – Dr. Roach (30 mins)

Government/Reviewer closed discussion

~~Canterbury Glen Homeowners Association~~

~~Meeting Minutes~~

~~November 18, 2019~~

~~7:00 PM~~

~~Attendees:~~

Brett Meyers	President
James Rogers	Vice-President
Steve Wells	Treasurer
Sina Taylor	ACC Member
Lee Hill	Resident

~~❖ Treasurers Report approved as read and accepted.~~

- ~~○ We typically approve our budget in January but approve owner dues the meeting before that (November), which Steve pointed out is the reverse of how you want to do budgeting. He suggested in 2020 we schedule budgeting for November. Agreed upon by board.~~

~~❖ ACC Report:~~

- ~~○ Sina says they are planning the next walk through for Spring.~~

~~❖ Crime Watch Update:~~

~~○ Nothing to report~~

~~❖ Social Committee:-~~

~~○ Planning Holiday gathering December 20th before sundown, Xmas light judging to occur after that. Prizes for 1st, 2nd, 3rd place to be \$50/\$30/\$20~~

~~❖ Old Business:-~~

- ~~○ School Bus in yard on Hubers. Open Discussion about eyesore and possible ways to remedy issue. Board agrees to recommend to ACC that they send a 2nd violation letter to tenants, homeowner.~~
- ~~○ Work has begun on the Front Wall, fixing the surface of cracks, bubbling paint, loose foam caps~~

~~❖ New Business:-~~

- ~~○ Agent of the owner building a new house on Isbell adjacent to the Canterbury wall (North side, up against Winn Dixie property) contacted Steve to request permission if they want to extend our wall to the back of the property.~~
 - ~~○ Issue at hand is whether this could create a liability for us in the future or how we would demarcate where our wall/theirs begin and end, for maintenance/repair issues.~~
 - ~~○ We agreed to ask more questions about their intentions and see what options we are comfortable with.~~
 - ~~○ Dues Letters — we will request Cindy to send those in December~~
 - ~~○ January Elections — We need to come up with a social media and other campaign to recruit volunteers as volunteering has been light.~~
- ~~-~~

~~❖ Next meeting — January 27th, 2020 at 7:00 p.m.~~

~~❖ Meeting adjourned at 7:55 p.m.~~
