I respectfully request the Board approve the invoice from Truck country of Indiana for \$6,671.00. This was an upgrade to the electronic controls on our newest Freightliner truck. We made this decision last year to upgrade but I could not find where I brought it back to the Board for approval. This is a sourcewell bid so it is not a competitive bid situation. The original controls we specified in our bid is now obsolete so this was our best option. If you have any questions please let me know. Thank you.

COVER LETTER

~~Tyler Rankins~~
TO
Street Commissioner

HIRING MANAGER

Dear Ms. Smith:

Are you searching for a software engineer with a proven ability to develop high-performance applications and technical innovations? If so, please consider my enclosed resume.

Since 2010, I have served as a software engineer for Action Company, where I have been repeatedly recognized for developing innovative solutions for multimillion-dollar, globally deployed software and systems. I am responsible for full lifecycle development of next-generation software, from initial requirement gathering to design, coding, testing, documentation and implementation. Since 2010, I have served as a software engineer for Action Company, where I have been repeatedly recognized for developing innovative solutions for multimillion-dollar, globally deployed software and systems. I am responsible for full lifecycle development of next-generation software, from initial regg coding, testing, documentation and implementation.

My technical expertise includes cross-platform proficiency (Windows, Unix, Linux and VxWorks); fluency in 13 scripting/programming languages (including C, C++, VB, Java, Perl and SQL); and advanced knowledge of developer applications, tools, methodologies and best practices (including OOD, client/server architecture and self-test automation).

Smith Hemalika
